*Medieval Saints in Late Nineteenth Century French Culture* Elizabeth Emery, Laurie Postlewaite, 2004-08-02 Legends tales and mysteries featuring saints captivated the French at the end of the nineteenth century As Jean Lorrain pointed out in an 1891 article for the popular weekly *Le Courrier Français* the seemingly simple language of the saints lives their noble battles between good and evil and the atmosphere of religious mysticism appealed to many especially those involved in the visual and performing arts Ironically The Third Republic 1870 1940 a regime that claimed to reinforce and institute the secular ideas of the French Revolution was witness to this great popular interest in the saints and religious imagery The eight essays in this work explore the popularity of the saints from the 1850s to the 1920s The essays evaluate the role they played in literature art music science history and politics examine portrayals of the saints lives in both low and high culture from children s literature shadow plays and the popular press to literature opera and theological studies and reveal the prevalence of the saints in fin de siècle France      **Sainte Lydwine de Schiedam** Joris-Karl Huysmans, 1901      *Sainte Lydwine de*

Schiedam. (2 v.) Joris-Karl Huysmans, 1928      **Birth and Death in Nineteenth-Century French Culture**, 2007-01-01 This volume draws contributors from around the globe who represent the full range of approaches to scholarship in nineteenth century French studies historical literary cultural art historical philosophical and comparative The theme of the volume Birth and Death is one with particular resonance for nineteenth century French studies since the nineteenth century is commonly perceived as an age of new life and renovation It is the epoch that witnessed an efflorescence of industrial and artistic progress the birth of the individual and the birth of the novel and the creation of an urban population in the major demographic shift from the rural provinces to Paris At the same time however it is the century of Decadence and degeneration theory marked by a prominent morbid aesthetic in the artistic sphere and a fascination with criminality moral decay and the pathologization of racial and sexual minorities in the scientific discourses It is also the century in which reflection on processes of artistic creation begins to problematize concepts of mimetic representation the function of the author and the status of the text In the context of the dialectical quality of nineteenth century French culture caught between an obsession with the new and innovative and a paranoid sense of its own encroaching decay the twin themes of birth and death open onto a variety of issues literary social historical artistic which are explored interrogated and reassessed in the essays contained in this volume      *The Mirror of Divinity* Robert Ziegler, 2004-05 Using a multidisciplinary approach this book argues that the operation of art as mirror is the key to the hidden unity of Huysmans fiction The author claims that only the elimination of Huysmans stylistic distortions enabled his art finally to become faithful and clear      Louis Massignon et la mystique musulmane Florence Ollivry, 2023-08-21 la faveur d l ments historiques et biographiques in dits cet ouvrage offre une analyse approfondie de l uvre consacr e par Louis Massignon 1883 1962 la mystique musulmane Il souligne l importance de certaines d couvertes de l islamologue pour les tudes islamiques concernant la p riode formative du soufisme Plus encore ce livre sonde le regard port par Massignon sur les vocations mystiques en islam et examine la lumi re des travaux r cents sa vision de la saintet et de la figure d al all j mort en 309 922 Par suite ce travail fait merger la question de la posture du chercheur en sciences des religions ainsi que celle des pr cautions adopter afin que sa subjectivit ne reconstruise pas le r el mais l claire et le r v le This book provides an extensive analysis of the work of Louis Massignon 1883 1962 on Muslim mysticism based on previously unpublished historical and biographical elements It highlights the importance for Islamic Studies of certain discoveries made by the Islamicist concerning the formative period of Sufism More than that this book probes Massignon s view of mystical vocations in Islam and examines in the light of recent work his vision of holiness and the figure of al all j d 309 922 This work opens more broadly the question of the posture of the researcher in the study of religion and the precautions to be adopted so that their subjectivity does not reconstruct reality but illuminates and reveals it

**Saint Hysteria** Cristina Mazzoni, 1996 Saint Hysteria examines scientific literary and religious texts that share a fascination with the otherness of the female body whether in ecstatic pleasure or in neurotic pain Cristina Mazzoni focuses on material from the late nineteenth and early twentieth centuries mainly in Italy and France Her approach uses the methodologies of cultural studies and feminism but also benefits from the insights of psychoanalytic criticism She asks how the identification of mysticism with hysteria became prevalent and explores the continuing dialogue between a historicizing view of hysteria and a view of hysteria as repressed religious mysticism According to Mazzoni this dialogue is discernible at various levels and in a variety of discourses The medical history of hysteria she maintains is often linked to the religious history of supernatural phenomena and the medical discourse of positivism depends on the religious feminine element that it attempts to repress Similarly she finds a continuity between the literature of naturalism and that of decadence in their representations of the interdependence of neurosis and religion Finally the religious writings of women mystics and the discourses they inspired reveal an unresolved tension between nature and supernature body and soul or psyche which Mazzoni suggests mirrors and complicates the very issues raised by hysterical conversion Among those whose views she considers are the writers Jules and Edmond de Goncourt Gabriele d Annunzio and Antonio Fogazzaro as well as Graham Greene and Simone Weil the mystics Angela of Foligno Gemma Galgani and Teresa of Avila and the theorists Jean Martin Charcot Cesare Lombroso Jacques Lacan Simone de Beauvoir Julia Kristeva and Luce Irigaray

Stableford, 2006-09-06 Science fiction is a literary genre based on scientific speculation Works of science fiction use the ideas and the vocabulary of all sciences to create valid narratives that explore the future effects of science on events and human beings Science Fact and Science Fiction examines in one volume how science has propelled science fiction and to a lesser extent how science fiction has influenced the sciences Although coverage will discuss the science behind the fiction from the Classical Age to the present focus is naturally on the 19th century to the present when the Industrial Revolution and spectacular progress in science and technology triggered an influx of science fiction works speculating on the future As scientific developments alter expectations for the future the literature absorbs uses and adapts such contextual visions The goal of the Encyclopedia is not to present a catalog of sciences and their application in literary fiction but rather to study the ongoing flow and counterflow of influences including how fictional representations of science affect how we view its practice and disciplines Although the main focus is on literature other forms of science fiction including film and video games are explored and because science is an international matter works from non English speaking countries are discussed as needed

**Nordic Literature of Decadence** Pirjo Lyytikäinen, Riikka Rossi, Viola Parente-Čapková, Mirjam Hinrikus, 2019-07-11 Nordic Literature of Decadence fills a gap on the map of world literature and participates in a thriving area of research by extending the investigation of broadly understood fin de siècle decadence to unexplored areas of Nordic literature which remain practically unknown to Anglophone audiences In the Nordic countries the new Parisian movements were seen as having caused a malicious invasion a black flood that was spreading over the North destroying the very foundations of Nordic national cultures Nevertheless the appeal of this controversial movement was irresistible to discontents and innovators even in countries where the old moral religious and nationalist atmosphere still retained its stranglehold and modern urban industrial and social developments lagged behind that of the metropolises breeding this new literature and art The Nordic countries developed their own distinctive manifestations of decadence favouring allegorical and allusive forms local rural settings and depictions of primitive nature coupling the philosophical underpinnings of fin de siècle decadence with ancient Nordic mythology and rising national movements Nordic decadence thus became a distinctive and recognizable phenomenon which travelled back to France and other European countries influencing the ongoing debate on decadence as it was conducted on a global scale Nordic Literature of Decadence discusses literature from five Nordic countries Denmark Norway Sweden Finland and Estonia and offers additional and alternative perspectives to the cosmopolitan traffic and cultural exchanges of literary decadence that have been explored so far in the English language scholarship      **The Poor in the Middle Ages** Michel Mollat, Michel Mollat du Jourdin, 1986-01-01      *Library Notes* North Carolina College for Women.
