

IELTS Band 9 Sample Essay

Exam Question: Many people nowadays travel abroad for their university education. Why do people do this? Would you consider doing this yourself and why?

In recent years it has become normal for high school graduates to travel abroad for their university education. There are numerous positive aspects to studying in a foreign country, such as the discovery of new cultures, the possibility of learning more about oneself and the chance of learning a new language.

By travelling to a foreign country, it is certain that one will be confronted with foreign customs and traditions. Experiencing and understanding these customs and their origins provides students with an interesting chance to develop a more open-minded attitude towards others. Additionally, it is also extremely stimulating to learn more about the reasons behind certain traditions and practices.

A prime reason for students studying abroad is the prospect of finding oneself and growing as an individual. When living in a foreign country, students have to become increasingly independent and they are confronted with their strengths and weaknesses. Typically students develop increased self-esteem and also acquire or improve upon their skills of housekeeping and cooking, which are important for living independently later on in life.
