decisions there s no denying that this was primarily possible due to better financial management Finance plays an important  
role in everyone s life but still debits and credits are viewed as alien concepts and the management of finance is considered a  
complex subject However if the same is presented in a simple way that is easy to understand with some real life like

knowledge held by people throughout the organization toward achieving long term strategic goals Kaplan and Norton  
demonstrate how senior executives in industries such as banking oil insurance and retailing are using the Balanced  
Scorecard both to guide current performance and to target future performance They show how to use measures in four  
categories financial performance customer knowledge internal business processes and learning and growth to align  
individual organizational and cross departmental initiatives and to identify entirely new processes for meeting customer and  
shareholder objectives The authors also reveal how to use the Balanced Scorecard as a robust learning system for testing
