earth guide for those who work in teaching and learning in universities this book will be indispensable reading for those who would like to carry out action research on their own practice Lin S Norton's concept of pedagogical action research has come from over twenty years experience of carrying out such research and more than six years of encouraging colleagues to carry out small scale studies at an institutional national and international level This accessible text illustrates what might be done to improve teaching supporting learning by carrying out action research to address such questions such as What can I do to enthuse my students What can I do to help students become more analytical How can I help students to link theory with their practice What can I do to make my lecturing style more accessible What is going wrong in my seminars when my students don't speak Action Research for Teaching and Learning offers readers practical advice on how to research their own practice in a higher education context It has been written specifically to take the reader through each stage of the action research process with the ultimate goal of producing a research study which is publishable Cognisant of the sector's view on what is perceived to be mainstream research the author has also written a substantial theoretical section which justifies the place of pedagogical action research in relation to reflective practice and the scholarship of teaching and learning *Report summaries* United States. Environmental Protection Agency, 1983 Gender and Tourism Sustainability Claudia Eger, Ana María Munar, Cathy H.C. Hsu, 2023-03-21 This book examines the relationship between gender and sustainability in tourism Whilst an extensive body of work exists in the areas of gender and sustainability these two fields of knowledge are seldom combined to examine tourism phenomena When we look at the evolution of tourism we see that sustainability has become an essential element in educational programmes policy making and strategic considerations for organisations and destinations Whilst the beginnings of tourism sustainability were challenging presently its relevance is seldom questioned However this situation is not the case with gender research Although gender theorising and research have existed for over a century and a rich legacy of knowledge exists on this topic meaningful and respectful engagement with this line of scholarship is thus far peripheral in tourism studies The aim of this book is to reflect on and rethink the intersection of gender and tourism sustainability through the lens of gender theory and feminist epistemology to stay with the trouble and devise pathways for sustainability gender knowledge This book will be of great interest to students researchers and academics in tourism gender and sustainability as well as tourism management The chapters in this book were originally published as a special issue of the *Journal of Sustainable Tourism* The Economics of Financial Services in Emerging Markets Bhagirath Prakash Baria, 2022-12-06 Any enquiry into the nature performance role demerits growth efficiency or other aspects of financial services such as banking and insurance activities requires rigorous estimates of their economic output i.e. the economic contributions made by these firms as well as by the industries as a whole Accordingly this book condenses several theoretical methodological empirical and philosophical issues in conceptualizing measuring and empirically operationalizing the economic output of the banking and insurance industries The analytical focus is on both Global and Emerging Markets

perspectives The book synthesizes applied and conceptual evidence to locate the chosen theme s analytical patterns consensus and disagreements The selected subject matter is studied within the firm level and aggregate settings bringing literature of varied scopes together Contributions from various international academics practitioners and policymakers further enrich the narrative The book concludes with data driven case studies that analyze the extent to which the critical performance parameters of the banking and insurance industries in the BRIICS economies including estimation of aggregate industry level partial factor productivities total factor productivity technical efficiency and returns to scale vary concerning alternate measures of their output The present work also provides a brief note on the inputs measurement dimension following which there is a discussion on the limitations future scope and conclusions This work will be valuable for researchers and policymakers undertaking performance analyses related to banking and insurance activities It shall provide them with the examination of a plethora of analytical options and related issues on the theory and praxis of output measurement all finely organized into one single volume
