

My Future Plans and Goals in Life Essay

When I imagine my future, I see myself as a college grad and successful person. I have many aspirations as to what I want to achieve. I hope to leave an impact on this world for future generations. My first goal, which is shared by my parents, is to go to college. I aim to get good grades in high school so that I can attend a good college. My parents really want me to be educated, because they feel that that is what it takes to succeed in life. I also share that view. Another reason I hope to attend college is that I imagine that when I am finished and graduated, I will feel a great sense of accomplishment. Also, My older brothers are in college, and I would like to continue the tradition.

Another plan I have for my future is my occupation. I think that I would like to be either an engineer, the occupation my dad has, or a scientist. I do not know what specific field I would like to major in, but I know that I want one of these two jobs. I think that they are the right job for me because they are interesting. I want to work at a job that I don't mind doing, as opposed to loathing every hour I spend at my occupation. But above all, I want to be successful. I have no preference over either one, as long as I am able to make a living out of it. My hope is that I will be able to work in a place that I like and make a living, enough to be considered successful. My last goal concerns my mark on this world. In my life, I hope to accomplish something memorable. I do not wish to be famous, for fame comes at a price. I just want to do something beneficial to someone or something and be recognized for it, if only briefly. An example of what I'm talking about is, say, an improvement to a scientific tool, or making plans for an eco-friendly factory of some sort. Things of that sort of magnitude is what I hope to accomplish. I want to be able to look back on my life and feel that I contributed something, however small, to this world for future generations.

I have set my aspirations for the future high, but I know that I can accomplish them. If I have made it this far in school, I think I will be able to do good on the remaining half of my education. And, through my education, I am sure I will find the right job for me. With hard work and effort, I can achieve anything.

How to Create the Future You Desire Christian Whitlowe, This short essay is divided into four parts Part I talks about the fluid and malleable nature of the future presenting it not as a fixed destination but as a field of possibilities that is shaped by inner beliefs and desires It suggests that the future is sensitive to daily choices and the vision we cultivate functioning like a river with multiple courses to follow In order to influence it it is essential to change one s inner perception visualize one s goals as already accomplished and trust in what is not yet seen allowing imagination and feeling to chart the path of what is to come Part II focuses on the power of the mind and imagination as instruments capable of transforming reality It proposes that the external world can be reshaped by changing the internal focus going beyond the appearances captured by the senses For a wish to come true it s not enough to imagine it superficially you have to feel it as present and persist in that state with conviction Training concentration on a specific scene that represents the goal already achieved is highlighted as an essential practice creating a direct connection between now and the desired future Part III examines the idea that truth lies beyond what the senses show freeing those who understand it from apparent limitations It states that the imagination is a powerful creative force capable of transforming the impossible into the real as long as it is guided by thoughts of beauty and goodness The text warns that this force responds to both the positive and the negative requiring care in what is cultivated internally In this way reality reflects what we carry in our consciousness and whoever masters this principle becomes the artisan of their own destiny Part IV concludes that the realization of any ideal is born within and that the external world is a mirror of the internal state Everything that is sought already exists in potential waiting to be awakened by consciousness Getting in tune with a high ideal and cultivating positive emotions is presented as the means of attracting harmonious circumstances The text emphasizes that the creation of a new reality does not come from external efforts but from the transformation of consciousness which reorganizes reality dissolving the old and shaping the new It is our hope that this short essay will shed light on the transformative potential that resides in everyone showing how the future bends to the choices and visions cultivated in the present Tags self awareness power of the mind I am creative imagination law of attraction inner transformation creative mind manifestation creative visualization personal fulfillment spiritual development inner growth power of thought co creation of reality awakening of consciousness practical spirituality success prosperity wealth money

We Need More Tables Norma Young, 2020-05-04 Poverty isn't always a jumble of appalling statistics. Sometimes there are names, faces, and stories to the numbers. It's a cousin who's finished high school but doesn't have enough money to job hunt. It's a colleague whose hand-to-mouth living still only gets her through half the month because her salary is just not enough. It's a grandfather who worked for decades and got a retirement package so paltry he can't pay his monthly bills. When people you know and love are behind the data of impoverishment, it can be hard to determine how to help. It can be even harder to settle on how much to help without compromising on your own quality of life. In *We Need More Tables*, Norma Young provides guidance on how to find a balance between alleviating poverty and yet maintaining a measure of the privilege one may have been born with. By exploring assumptions such as the myth of hard work and the fallacy of meritocracy, as well as historical methodologies of philanthropy in Africa and suggesting the practice of impactful altruism such as paying a living wage, building a solidarity economy, or choosing regenerative investing, she shares an outline of how those with privilege can play a role in social justice. Drawing on indigenous knowledge, fables, proverbs, and learnings from African academics, *We Need More Tables* presents a framework of what is required to bring more of our communities to participate at the tables where decisions are made. Norma Young's insightful book provides us with realistic and practical ways of moving towards eradicating poverty in South Africa.
