Revisiting Iris Marion Young On Normalisation Inclusion And Democracy:

Revisiting Iris Marion Young on Normalisation, Inclusion and Democracy U. Vieten, 2014-11-07 Revisiting Iris Marion Young on Normalisation Inclusion and Democracy presents an innovative collection of politically and theoretically inspiring papers by feminist queer and postcolonial writers All authors engage with Young's politics of cultural difference and a politics of positional difference read against her critique of normalisation Populism and the Crisis of Democracy Gregor Fitzi, Juergen Mackert, Bryan Turner, 2018-10-11 The contributions to this volume Politics Social Movements and Extremism take serious the fact that populism is a symptom of the crisis of representation that is affecting parliamentary democracy Right wing populism skyrocketed to electoral success and is now part of the government in several European countries but it also shaped the Brexit campaign and the US presidential election In Southern Europe left wing populism transformed the classical two parties systems into ungovernable three fractions parliaments whereas in Latin America it still presents an instable alternative to liberal democracy The varying consequences of populist mobilisation so far consist in the maceration of the established borders of political culture the distortion of legislation concerning migrants and migration and the emergence of hybrid regimes bordering on and sometimes leaning towards dictatorship Yet in order to understand populism innovative research approaches are required that need to be capable of overcoming stereotypes and conceptual dichotomies which are deeply rooted in the political debate The chapters of this volume offer such new theoretical strategies for inquiring into the multi faceted populist phenomenon The chapters analyse its language concepts and its relationship to social media in an innovative way draw the contours of left and right wing populism and reconstruct its shifting delimitation to political extremism Furthermore they value the most significant aftermath of populist mobilisation on the institutional frame of parliamentary democracy from the limitation of the freedom of press to the dismantling of the separation of powers to the erosion of citizenship rights This volume will be an invaluable reference for students and scholars in the field of political theory political sociology and European Studies **Paradoxical Right-Wing Sexual Politics in Europe** Cornelia Möser, Jennifer Ramme, Judit Takács, 2021-12-06 How did far right hateful and anti democratic ideologies become so successful in many societies in Europe This volume analyses the paradoxical roles sexual politics have played in this process and reveals that the incoherence and untruthfulness in right wing populist ultraconservative and far right rhetorics of fear are not necessarily signs of weakness Instead the authors show how the far right can profit from its own incoherence by generating fear and creating discourses of crisis for which they are ready to offer simple solutions In studies on Poland Hungary Spain Italy Austria Ireland Northern Ireland Portugal France Sweden and Russia the ways far right ideologies travel and take root are analysed from a multi disciplinary perspective including feminist and LGBTQI reactions Understanding how hateful and antidemocratic ideologies enter the very centre of European societies is a necessary premise for developing successful counterstrategies **Handbook on Local and Regional Governance** Filipe Teles, 2023-01-13 Holistic in

approach this Handbook's international range of leading scholars present complementary perspectives both theoretical and empirically pertinent to explore recent developments in the field of local and regional governance

Loss and Liquid Citizenship in Europe Ulrike M. Responsibility in Environmental Governance Tobias Gumbert, 2022-10-02 This book provides a comprehensive study of the notion of responsibility in environmental governance It starts with the observation that although the rhetoric of responsibility is indeed all pervasive in environmental and sustainability related fields decisive political action is still lacking Governance architectures increasingly strive to hold different stakeholders responsible by installing accountability and transparency mechanisms to manage environmental problems yet the structural background conditions affecting these issues continue to generate unevenly distributed socially unjust and ecologically devastating consequences Responsibility in Environmental Governance develops the concept of responsibility as an analytical approach to map and understand these dynamics and to situate diverse meanings of responsibility within larger socio political contexts It applies this approach to the study of food waste governance uncovering a narrow governance focus on accountability optimization and consumer

Cities, Migration, and Governance Felicitas Hillmann, Michael Samers, 2023-07-31 This volume examines how cities migration and urban governance are intertwined Questioning and re working the conceptual reliance on scales and levels it draws on examples from both Europe and North America to conceptualize the variety of cities as re active and pro active within glocal and socio territorial dynamics The book covers the governance of the myriad dimensions of urban life such as work housing racism Islamophobia xenophobia the arts leisure and other cultural practices political participation social movements and contentious politics in North American and European cities While cities might implement integration policies the chapters do not necessarily assume that migrants live with the telos of integration but rather conduct their lives as anyone else would making meaning and voicing concerns under often difficult material conditions strewn with the markers of race religion gender sexuality age and often illegality The

volume highlights four arguments themes or contributions addressed by one or more of the chapters how demographic change is prompting more pro active urban governance responses in many cities in the 21st century how the sheer complexity of migration in the 21st century is shaping the participation of citizen civil society actors the growing role of new private actors in the realm of urban governance and the participation of migrants themselves in this governance The book reminds us that we are confronted with a spectrum of urban governance strategies ranging from re active cities to pro active and welcoming cities Both timely and relevant this book collects the work of well known scholars in the field of migration and urban studies The chapters in this book were originally published as a special issue of Geographical Review

ist ursächlich mit Stellungnahme und Wertung verknüpft. Das Spektrum dieser axiologischen Implikationen reicht von der möglichst sachlichen bis hin zu einer stark attribuierenden oder urteilenden Darstellung, die unmerklich in die Manipulation abgleiten kann. Das Bei Werten und Bei Urteilen hat trotz der enormen Tragweite für Gesellschaft und Geisteswissenschaft bisher jedoch kaum theoretische Reflexion erfahren. Die Beiträge innerhalb des interdisziplinären Bandes setzen genau hier an, wobei die Mechanismen der Urteilsimplikationen in Kunst, Literatur, Fotografie, Videogames, Karikaturen, aber auch in Journalismus und Soziologie im Blickfeld stehen. Angesichts von political correctness, der me too Bewegung und der Diskussion um fake news ist diese theoretische Reflexion des Wertens und Urteilens unerlässlich und hochaktuell. Recht und Sorge Sarah Mühlbacher, 2024-07-17. Durch Rechte sollen Kinder sowohl geschützt als auch beteiligt werden. Sarah Mühlbacher zeigt, inwiefern sich rechtliche Reformprojekte immer wieder in rechtliche Regelungen verkehren, die die Perspektiven und Lebensrealitäten von Kindern unsichtbar machen. Ihre soziologische Studie analysiert reformerische, gegenreformerische und transformatorische Positionen in den Diskursen um zentrale Reformen seit den 1960er Jahren und verdeutlicht, welche Stimmen kein Gehör fanden. Sie rekonstruiert die strukturelle Abwertung der Sorge, die Naturalisierung von Kindheitskonzepten und die Hierarchisierung von Differenzen in rechtlichen Diskursen, Verfahrens- und Subjektivierungsweisen in kapitalistischen Gesellschaften als Schlüssel zum Verständnis dieser paradoxalen Konstellation. Das Buch endet mit einem Ausblick auf eine radikale Transformation von Rechten in Beziehung zu Politiken radikaler Sorge.
