

# RF80-K BATTERY CHARGER/ANALYZER

## The RF80-K Charger/Analyzer

The RF80-K is the worldwide industry leader for high-grade aircraft battery charger/analyzers. With its many user-friendly features, automatic operation, digital timers and displays, battery reconditioning capability, and selection of charge modes including Christie's exclusive fast ReFLEX charging, the RF80-K is unsurpassed. And, it is the only battery charger/analyzer in the industry offered with a full three-year warranty.

### Capabilities

The RF80-K offers a choice of several charging techniques, such as ReFLEX, constant current, constant potential and two-step constant current. Christie's exclusive ReFLEX charging method offers the advantage of charging batteries faster, without heating, and in as little as one hour while simultaneously reconditioning the batteries. Additionally, the RF80-K employs negative slope sensing as a built-in safety measure to prevent overcharging and possible thermal runaway.

### Features and Benefits

- Automatic Operation
- Heavy Duty Design and Performance
- Digital Timing/Display
- Charges and Analyzes All Aircraft Batteries - NiCd and Lead-Acid (3-55 AH)
- Unique ReFLEX<sup>®</sup> Charging Technique
- Constant Current/Constant Potential Charging
- One-hour Charge, One-hour Discharge (NiCd)
- Reconditions NiCd Batteries
- Exclusive DigiFLEX<sup>®</sup> Analysis
- Cell Voltage Balance Testing
- Full Three (3) Year Warranty

### Analyzer Function

Battery analysis is automatically performed by the RF80-K with a preprogrammed charge-discharge-recharge cycle that matches the characteristics of each battery type. Via a quick switch selection, the RF80-K provides the user with a simple "GOMNO GO" battery condition, or an exact ampere-hour capacity determination. A third switch position performs a deep discharge to recondition NiCd batteries or prepare them for storage.

Battery analysis by individual cell performance and condition is offered when used in conjunction with Christie's DATAFX. Aside from instantaneous cell voltage measurements during the service cycle, the DATAFX monitors cells for error conditions such as cell imbalance, low cell voltage, negative slope and reversed cell polarity. Hard-copy reports, when used with the optional printer, offer detailed documentation of servicing tasks for each battery. And, the built-in RS232 PC interface allows the DATAFX to tie into Christie's CRS software system to fully automate the documentation process and store essential data.

## **Rf80k User Manual:**

## Enjoying the Melody of Phrase: An Emotional Symphony within **Rf80k User Manual**

In a global consumed by screens and the ceaseless chatter of instant connection, the melodic elegance and emotional symphony produced by the published word often disappear into the back ground, eclipsed by the constant noise and disturbances that permeate our lives. However, set within the pages of **Rf80k User Manual** a wonderful fictional prize filled with organic emotions, lies an immersive symphony waiting to be embraced. Constructed by an outstanding musician of language, that charming masterpiece conducts readers on a psychological trip, skillfully unraveling the concealed songs and profound influence resonating within each cautiously constructed phrase. Within the depths with this touching examination, we shall explore the book is central harmonies, analyze its enthralling publishing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
