

Rhino Poaching in Namibia

of reported rhino poaching deaths in Namibia

Data from 2006 to 2020 are from SACI's African Rhino Specialist Group. 2021 and 2022 numbers are from Namibia's Ministry of Environment, Forestry and Tourism as of January 2023.

Rhino Poaching Grade12014

Caroline Cass

Rhino Poaching Grade12014:

Operation Lock and the War on Rhino Poaching John Hanks, 2015 The definitive account of a daring and controversial covert operation to stop the aggressive illegal trade in rhino horn in the 1980s *Africa's Threatened Rhinos* Keith Somerville, 2025-01-14 Africa's surviving rhinos are under serious threat Poaching for their horns massive extermination by sports hunters in the nineteenth and first half of the twentieth century and progressive habitat loss have all driven black and white rhino close to the edge This book considers human interactions with these magnificent and enigmatic animals charting hunting for food and hides and then hunting for horn to meet external demand for this much coveted commodity as well as peaceful coexistence over the course of three millennia With only two females alive in a closely protected reserve in Kenya the Northern White Rhino is on the brink of extinction The Southern White Rhino was increasing in numbers but poaching in South Africa Botswana and Namibia has now reduced the population to fewer than 20 000 while Black Rhino are hovering around the 6 000 6 500 mark also with the danger of extirpation everywhere but in parts of eastern and southern Africa Many books have been written on poaching and the decline of the rhino often from a very personal engaged viewpoint This volume takes the reader into important new territory showing how human agency has led to the situation we now face Covering the history of commercial and sporting exploitation of rhino it brings the picture up to date with an overview of contemporary conservation and anti poaching operations This urgent work is a significant contribution to our understanding of wildlife on the African continent **Rhino Poaching** Janina Naef, 2016 Rhino horn is very popular in Asia as it is a status symbol and used as medicine That is one reason why the number of these animals is decreasing continuously In 2007 13 rhinos were poached in South Africa while in 2015 the number increased to 1175 rhinos This Matura Paper deals with problems of rhino poaching in South Africa It poses into the question if it is still possible to see rhinos in the future and examines what should be done to save this species from extinction Therefore 5 theses has been stated which consist of political financial protection measures and enlightenment of local and Asian people Thereby an interview has been conducted with a conservationist in addition to research in a volunteering project in South Africa regarding these theses The results prove the problems already stated If there are no changes in one of these problems the rhino doubtfully has a future

Ivory, Horn and Blood Ronald Orenstein, 2013-07-25 Meticulous research chilling facts an important and much needed book Dr Jane Goodall DBE Founder The Jane Goodall Institute If it is understanding you seek turn these pages Virginia McKenna OBE Founder The Born Free Foundation If you care about elephants and rhinos and the poaching onslaught that threatens their extinction in the wild this is the book for you Ian Redmond OBE Ambassador UN Great Apes Survival Program As recently as ten years ago out of every ten African elephants that died four fell at the hands of poachers The figure today is eight Over sixty percent of Africa's Forest Elephants have been killed by poachers since the turn of the century Rhinoceroses are being slaughtered throughout their ranges The Vietnamese One horned Rhinoceros and the Western Black rhino have

become extinct in the last decade and the Northern White Rhinoceros the largest of them all barely survives in captivity This alarming book tells a crime story that takes place thousands of miles away in countries that few of us may visit But like the trade in illegal drugs the traffic in elephant ivory and rhinoceros horn has far reaching implications not only for these endangered animals but also for the human victims of a world wide surge in organized crime corruption and violence Since the worldwide ban on commercial ivory trade was passed in 1989 after a decade that saw half of Africa s elephants slaughtered by poachers Ronald Orenstein has been at the heart of the fight Today a new ivory crisis has arisen fuelled by internal wars in Africa and a growing market in the Far East Seizures of smuggled ivory have shot up in the past few years Bands of militia have crossed from one side of Africa to the other slaughtering elephants with automatic weapons A market surge in Vietnam and elsewhere has led to a growing criminal onslaught against the world s rhinoceroses The situation for both elephants and rhinos is dire

How to Study Rhinos Bayard H. Brattstrom, Martha A. Brattstrom, Mary E. Shipman, 2016-04-29 Rhinos are interesting fun to watch and endangered of becoming extinct This book is first about how scientists study rhinos and then information is presented on rhino taxonomy distribution ecology fossil history behavior reproduction and conservation including poaching But there is a lot more to rhinos than just the above there are also sections on rhinos in history rhinos in art rhino companies logos and products as well as lists of rhino books toys and conservation organizations

Saving the Last Rhinos Grant Fowlds, Graham Spence, 2019 What would drive a man to smuggle rhino horn back into Africa at great risk to himself This is just one of the situations Grant Fowlds has put himself in as part of his ongoing fight against poaching in order to prove a link between southern Africa and the illicit lucrative trade in rhino horn in Vietnam Shavings of rhino horn are sold as a snake oil cure for colds or impotence but a rhino s horn has no magical medicinal properties It is for this that rhinoceroses are being killed at an escalating rate that puts the survival of the species in jeopardy This corrupt illegal war on wildlife has brought an iconic animal to the brink of extinction Growing up on a farm in the eastern Cape of South Africa Grant developed a deep love of nature turning his back on hunting to focus on saving wildlife of all kinds and the environment that sustains both them and us He is a passionate conservationist who puts himself on the front line of protecting rhinos in the wild right now against armed poachers but in the longer term too through his work with schoolchildren communities and policymakers In 2016 the number of rhinos poached in South Africa stood at 1054 Department of Environmental Affairs In 2017 529 rhinos had been slaughtered by 24th July In the last nine years over 6100 rhinos have been poached in South Africa leaving fewer than 19000 white and 2000 black rhinos in the country The situation is critical

Saving the Last Rhinos Grant Fowlds, Graham Spence, 2019-11-07 Each year more than one thousand rhinoceroses are killed in South Africa alone There are fewer than 18 000 white rhinos and only 5 000 black rhinos left alive in the wild The situation with regard to this corrupt illegal war on wildlife is clearly critical And what are rhinos killed for Their horns sold in shavings as a snake oil cure for colds or impotence The going price is 16 000 a kilogram but a rhino s

horn is simply keratin the same material as our fingernails with no magical medicinal properties Grant Fowlds is a passionate conservationist on the front line of protecting these iconic animals right now against armed poachers but in the longer term too through his work with schoolchildren communities and policymakers Amazon.com **Under Siege** Vivek Menon, 1996 This report documents the results of a study by TRAFFIC India with the support of WWF India The study began in 1992 and field updates continued to be received until April 1996 The report presents information on rhinoceros population poaching and trade in and use of rhinoceros horn *Rhino War* Major General (Ret). Johan Jooste, Tony Park, 2022-06-05 In 2012 retired South African general Johan Jooste was parachuted into the seemingly unwinnable war against rhino poaching in the Kruger National Park With poaching spiralling out of control Jooste was given the mandate to go military to convert Kruger's ranger corps into a para military force capable of taking the fight to the poachers Aged 60 white and a veteran of his country's apartheid era wars Jooste's controversial appointment was immediately met with resentment and outright hostility by elements of South African National Parks the police and even the military he had served with With the media government conservationists human rights activists and the people of South Africa looking over his shoulder Jooste had to battle opponents within and without to see through his strategy for turning the tide of rhino poaching *Rhino War* tells how Jooste facing an unprecedented assault on a single national park and a species took a demoralised force of men and women and turned them into arguably the best anti poaching unit on the African continent Told through his eyes and stories of the courage and grit of rangers who daily risked their lives to protect wildlife in the face of a wily and determined foe this is a story of heroism sacrifice and determination Humbly honestly and decisively Jooste tells of the successes and failures of his bold strategy and shares his vision for the future *Development of a Rhino Anti-poaching Model for Game Farms and Nature Reserves in the Free State Province of South Africa* H.L. Jordaan, 2018 During the last ten years the rhino populations of South Africa have suffered under an intense poaching onslaught This onslaught has moved to the Free State Province of South Africa and there is a justified concern that its rhino populations are at risk To protect the rhinos in the Province a need exists to manage the risk of poaching through a practical rhino anti poaching model which can assist to protect them effectively This Rhino Anti Poaching Model can determine and predict a poaching risk can identify weaknesses can assist to address problem areas and will enable efficient monitoring It is imperative to know which rhino species occurred in the Free State Province in historical times to ensure that the correct rhino species is protected against the risk of poaching and that they be kept in a suitable habitat Nine farms in the Free State have rhino as a prefix in their names which may be an indication that rhino did occur in the Province Various historical photos and literature give a retrospective view and show that there was insufficient browsing vegetation for black rhinos to survive The occurrence of open grassland however suggests that white rhinos did occur in those specific areas during the time of the first pioneers During this study period a count of rhinos was done and currently there are 669 white rhinos and 11 black rhinos in the Province thus a total of 680

rhinos in the Free State Province The South African Constitution mandated the State to enforce measures that will ensure adequate environmental protection for the benefit of future generations The South African government promulgated a myriad of new environmental legislation Several international agreements were also introduced as enforcement tools to regulate rhinos The enforcement measures are noble but out of balance with many inspectors but too few law enforcement officials It also over regulates and ensnare officials in minor issues A brief discussion on the latest technological innovations gives insight to the purpose of its development and effectiveness in combating rhino poaching There are currently no technical or strategic solutions to save rhinos from poaching therefore a combination of techniques is needed Although self manufactured unconventional devices seem to be more efficient to deceive poachers a combination with the latest technological equipment and conventional strategies might be the best solution to counter rhino poaching Free State rhino farmers own 90% of the Province s rhinos However these rhino farmers lack the appropriate security measures required to adequately protect their rhinos A questionnaire was developed and data were collected providing statistics on the current stance of security measures on rhino sites in the Province It showed that 80% of rhino poaching occurs in rhino camps bordering public roads 69% of the rhino sites located within 20km from the nearest town reported poaching and 77% of large rhino camps are prone to poaching incidents 57% of the respondents experienced rhino poaching on their sites Through the questionnaire it was gathered that rhino farmers in the Province are not vested in the concept of using trained rhino security A Production Loss Formula was constructed that calculates the production loss of a poached rhino

Douwlin Grace Borgeson,2012 This tender story shows how each animal and human who has been part of Douwlin the rhino s life has helped her *Four Years for the Rhino* Kamalajanga Kumvara,2012

Faru the Little Rhino Caroline Cass,2019-04 Follow Faru the little rhino on his quest to discover why there are so few rhinos left on the African plain

The Economics of Rhino Poaching Michael Dawes,2019

Death and Destruction Richard Wayne Charlton,2017 The poaching of wildlife has been a concern to many involved in the protection of wildlife Poaching is found throughout the world and has been around for thousands of years In the past century poaching has reached new heights and the concern of an extinction of a species has brought the topic of poaching to new light Whilst poaching has been seen as a biological or conservation topic in the past criminologists around the world have now started to delve into the topic The poaching of wildlife and more so in recent years rhino poaching has been a concern in South Africa South Africa has seen an increase in rhino poaching in the past 8 years where over 4 000 rhinos have been slaughtered This research aims to give insight into the current rhino poaching epidemic in South Africa and looks at the problem from a criminological point of view where possible solutions can be recommend using criminological theories for the prevention of rhino poaching

Delve into the emotional tapestry woven by Emotional Journey with in Experience **Rhino Poaching Grade12014** .
