Contested Valor Cameron D. McCoy, 2023-11-16 *Contested Valor* is a challenging examination of the use and status of black Marines in United States military service during the Cold War era These pioneering men experienced contested military integration as well as multiple forms of institutional and social opposition which called their humanity manhood and rights to full citizenship into question Efforts to undermine their service compromised their right to be counted among the elite and sidelined their story to the fringes of Marine Corps and U S history Cameron McCoy describes the factors and pressures leading to the racial turbulence that surfaced in the Marine Corps from the end of World War II through Vietnam and the measures taken by civilian and Marine officials to maintain and restore organizational integrity based on a foundation of white supremacy He examines the psychological effects of institutionalized racism on African American Marines during the Vietnam era and the emergence of a new generation of black men unwilling to submit to the traditions of a Jim Crow Marine Corps By exploring the realities American society constructed about black Marines this work calls attention to the diverse ways in which these men coped

within a strict prejudiced organization and found greater purpose as U S Marines despite an embattled image Contested Valor weaves the experiences of black Americans in the armed forces into the larger tapestry of the American racist past and aptly captures the dilemmas triumphs and pitfalls that the first African American Marines encountered during the contentious eras of World War II Korea and Vietnam McCoy explores the creation of organizational policies designed to minimize their footprint as U S Marines until the social experiment of military integration faded and illustrates the discriminatory practices that further delegitimized their wartime reputation McCoy demonstrates that black Marines absence from the historical record has been compounded by the negligence and oversight of past historians as the Marine Corps reckons with its racist past and its first black Marines

contribute to the impact agenda **Chain Reactions** Lucy Jane Santos, 2024-11-05 Tracing uranium's past and how it intersects with our understanding of other radioactive elements Chain Reactions aims to enlighten readers and refresh our attitudes about the atomic world Chain Reactions looks at the fascinating often forgotten stories that can be found throughout the history of uranium From glassworks to penny stocks from medicines to atomic weapons from something to be feared to a powerful source of energy this global history explores the scientific narrative of this unique element but also shines a light on its cultural and social impact By understanding our nuclear past we can move beyond the ideological opposition to technologies and encourage a more nuanced dialogue about whether it is feasible and desirable to have a genuinely nuclear powered future Western Journal of Education , 1902 The Scottish Economy and Nationalism James Foley, 2023-08-18 Scotland's economic capacity to prosper independently of Britain has become a key political issue dominating the independence referendum of 2014 and continuing to influence British politics since But as this book shows the Scottish economy is not merely a statistical object it is also a political sociological and cultural idea which has been imagined and constructed The book explores the history of how Scotland has been framed in statistical and policy terms which are laden with conflicts over meaning ranging from class struggles and struggles against external control to the ongoing debate over national independence Using Scotland as a case study for examining the political meaning of the economy the book also considers the origins of efforts to measure the Scottish economy in the British nationalist terms of regional policy It then considers the influence in turn of North Sea oil globalisation Europeanisation class dealignment and neoliberal enterprise ideology in changing the meanings attached to the Scottish economy These form necessary conditions for the debate on national independence where the nature and the future of the Scottish economy remain the central controversy By examining the economic ideas of a self proclaimed cosmopolitan nationalist movement the study will offer deeper insights into how nationalists are adapting to the crisis of globalisation This book marks a significant contribution to the literature on Scottish independence as well as economic sociology nationalism critical geography and political economy more broadly **Facsimile** Siân Echard, 2025-10-14 An unprecedented cultural history of reproductions of medieval manuscripts Facsimiles are or claim to be exact copies of objects and medieval manuscripts have long been a focus for this kind of reproduction Today digitization delivers complete high resolution full color digital copies of thousands of medieval manuscripts to anyone with an internet connection But for centuries scholars in fields like art history or paleography or textual editing had to travel to see the manuscripts their work depended on When they couldn't they relied on copies drawings engravings lithographs and eventually monochrome photographs usually of parts of a manuscript rather than the whole thing Facsimile explores the prehistory of our digital present focusing on the eighteenth and nineteenth centuries a period that witnessed rapid technological change a renewal of interest in the Middle Ages in the public at large the consolidation and emergence of scholarly disciplines and the increase in institutions that cared for medieval manuscripts Siân

Echard shows how facsimiles of medieval manuscripts were central to all these developments Focusing on Britain Echard traces how predigital technologies of reproduction were viewed by their practitioners and consumers and how they helped to form the ways people related to the medieval past Facsimile users were scholarly and popular with interests in text or image or books or all these things at once Four chapters Letter Figure Color Catastrophe show how the human hand the human eye and the human imagination intertwined with technology creating modern medieval hybrids that sit at the intersection of past and present From the rise of paleography and diplomatics as disciplines to the emergence of calligraphy as a craft and hobby from the use of facsimiles in shaping narratives of national identity to the substitution of facsimiles for destroyed or damaged manuscripts in the development of preservation practices Facsimile offers an unprecedented cultural history of reproductions of medieval manuscripts

Domingo,2016-03-29 A study of how literature of the early eighteenth century represented a newly fashionable life of amusement and diversion Chapters explore a range of diversionary preoccupations and argue that the devices of digressive wit adopt similar forms and fulfil similar functions in literature as do diversions in eighteenth century culture *Truth* ,1895 *Farmer's Weekly* ,1927 *The Lancet* ,1885
