## **Rich South High School Report Card:**

**An Unbroken Educational Apartheid Legacy** David E. Morgan Ph.D., 2015-03-17 This is a thought provoking book on the black white academic achievement gap in Chicago's predominantly black communities of color and what highly effective school boards can do to change it In this book the reader will be powerfully enlightened by a civil and human rights debate that calls for effective leadership in our schools beginning with effective school boards The primary agenda of effective school boards is raising student achievement performance levels and engaging the school district community to attain that goal These instructive analyses of effective school board leadership builds on the research and wisdom of great leaders Simultaneously it develops a breath of fresh air for school reformers who seek to implement a new model and escape the insanity and pathology inherent in school board dysfunctions and violations of our civil and human rights which prevents progress in Chicago's south suburban communities of color In both highs and lows of awesome moments as educational reform leaders and school board members we are in a strategic leadership position to help school boards carry out their essential responsibilities for creating equity and excellence in public education In doing so highly effective school leaders can team with our school board leaders to lead our school district communities in preparing all students to succeed in a rapidly changing global society School board members doing the same things over and over again and then expecting different results in academic outcomes is the definition for insanity Education is freedom In an era of mass educational apartheid with its consequent mass incarceration of blacks that has surpassed the enforced chattel bondage of slavery's peak numbers in 1860 this book addresses a subject that is critically essential timely and in need of immediate attention for the security success and ultimate survival of black America As the problems of the academic under achievement gap is addressed in this book it is also essential that school boards educators and community and national leaders accept reality to view the problem in its true perspective to contemplate it as it is in providing essential solutions toward removing limiting and limited school boards dysfunctions obstructions and other barriers to academic achievement in effective school board leadership Supporting educational excellence will thereby produce more African American scholars in mathematics science and in many other disciplines This book will provide information and focus on some key action areas that successful school boards in America and around the world have focused their attention on Vision Standards Assessment Resource Alignment Climate Collaboration and Continuous Academic Improvement

**The Writing Report Card, 1984-88** Arthur N. Applebee, 1990 Based on two national assessments of the writing proficiency of representative samples of students in grades 4 8 and 11 conducted during the school years ending in 1984 and 1988 this report assesses the informative persuasive and imaginative writing performance of the nation's students and tracks changes in performance over time The first three chapters of the report describe student performance on the informative persuasive and imaginative writing tasks included in the writing trend assessments based on the results of the primary trait and holistic analyses The fourth chapter summarizes trends in

average task accomplishment for the nation and various demographic subpopulations In the fifth chapter trends in students grammar punctuation and spelling are discussed The sixth chapter discusses factors that appear to be related to writing performance such as students instructional experiences and home environment The report concludes that despite some progress on some tasks students writing performance across tasks remains low and has changed little across time The report also finds that the extent to which students at all grade levels value writing use it in their own lives and engage in writing process activities remains quite limited A procedural appendix and an appendix of data are attached RS      *Charter School Report Card* Shawgi Tell,2016-04-01 What is a charter school Where do they come from Who promotes them and why What are they supposed to do Are they the silver bullet to the ills plaguing the American public education system This book provides a comprehensive and accessible overview and analysis of charter schools and their many dimensions It shows that charter schools as a whole lower the quality of education through the privatization and marketization of education The final chapter provides readers with a way toward rethinking and remaking education in a way that is consistent with modern requirements Society and its members need a fully funded high quality public education system open to all and controlled by a public authority      *The Civics Report Card* Lee F. Anderson,1990 This report summarizes findings from two national surveys of U S civics achievement conducted by the National Assessment of Educational Progress Part 1 reports on a trend assessment of approximately 56 000 students at ages 13 and 17 carried out during the 1975 76 1981 82 and 1987 88 school years Chapter 1 summarizes national trends trends for demographic subpopulations trends in students ability to define democracy and trends in students ability to identify the value of multiple newspaper publishers Part 2 reports on patterns of achievement of fourth eighth and twelfth grade students in 1988 Chapter 2 summarizes the levels of civics proficiency across the grades Chapter 3 compares civics proficiency across subpopulations defined by gender race ethnicity region and other characteristics Chapter 4 explores students performance in specific content areas such as democratic principles and the purpose of government political processes and rights responsibilities and the law Chapter 5 describes the amount of instruction students reported receiving in civics while chapter 6 discusses the topics studied and the instructional approaches used in these classes Appendices contain procedural information and tables of statistical data that supplement the information in the text JB      *Report Cards* Wade H. Morris,2023-09-26 The definitive history of the report card Report cards represent more than just an account of academic standing and attendance The report card also serves as a tool of control and as a microcosm for the shifting power dynamics among teachers parents school administrators and students In *Report Cards A Cultural History* Wade H Morris tells the story of American education by examining the history of this unique element of student life In the nearly two hundred year evolution of the report card this relic of academic bookkeeping reflected broader trends in the United States the republican zealotry and religious fervor of the antebellum period the failed promises of postwar Reconstruction for the formerly enslaved the changing gender roles in newly urbanized cities the

overreach of the Progressive child saving movement in the early twentieth century and by the 1930s the increasing faith in an academic meritocracy The use of report cards expanded with the growth of school bureaucracies becoming a tool through which administrators could surveil both student activity and teachers And by the late twentieth century even the most radical critics of numerical reporting of children have had to compromise their ideals Morris traces the evolution of how teachers students parents and administrators have historically responded to report cards From a western New York classroom teacher in the 1830s and a Georgia student in the 1870s who was born enslaved to a Colorado student incarcerated in the early 1900s and the son of Russian Jewish immigrants applying to college in the 1930s Report Cards describes how generations of people have struggled to maintain dignity within a system that reduces children to numbers on slips of paper

The Reading Report Card, 1971-88 Ina V. S. Mullis, Lynn Jenkins, National Assessment of Educational Progress (Project), 1990 Intended to serve as a resource for the many and varied groups concerned with improving students reading proficiencies this report from the Nation's Report Card provides a long term perspective on students reading skills and strategies based on a series of five national assessments conducted from 1971 to 1988 Each chapter of the report provides a different perspective on trends in students reading abilities The first chapter describes changes in the average reading performance of 9 13 and 17 year olds across the five reading trend assessments conducted by the National Assessment of Educational Progress NAEP between 1971 and 1988 The second chapter defines levels of reading proficiency and presents the percentages of students attaining these successive levels in each assessment The third chapter summarizes trends in students responses to questions on their reading instruction and experiences and investigates the relationships between these background factors and reading proficiency Overall the findings described in the report reveal generally positive but subtle changes in reading performance at the national level since 1971 1 nine year olds assessed in 1988 read significantly better than their counterparts assessed in 1971 but this progress was made in the 1970s 2 thirteen year olds reading achievement has fluctuated slightly over the years and 3 seventeen year old students assessed in 1988 read significantly better than their counterparts assessed in either 1971 or 1975 A procedural appendix and an appendix of data are attached RS
