Richard Matheson I Am Legend Study Guide:

A Study Guide for Thornton Wilder's "The Skin of Our Teeth" Gale, Cengage Learning, A Study Guide for Thornton Wilder's *The Skin of Our Teeth* excerpted from Gale's acclaimed *Drama For Students*. This concise study guide includes plot summary, character analysis, author biography, study questions, historical context, suggestions for further reading, and much more. For any literature project, trust *Drama For Students* for all of your research needs. I Am Legend as American Myth Amy J. Ransom, 2018-07-05 Richard Matheson's 1954 novel *I Am Legend* has spawned a series of iconic horror and science fiction films including *The Last Man on Earth* (1964), *The Omega Man* (1971), and *I Am Legend* (2007). The compelling narrative of the last man on earth struggling to survive a pandemic that has transformed the rest of humanity into monsters has become an American myth. While the core story remains intact, filmmakers have transformed the details over time, reflecting changing attitudes about race and masculinity. This reexamination of Matheson's novel situates the tale of one man's conflicted attitude about killing racialized others within its original post-World War II context, engaging the question of post-traumatic stress disorder. The author analyzes the several film adaptations with a focus on the casting and interpretations of protagonist Robert Neville. Reading Richard Matheson Cheyenne Mathews, Janet V. Haedicke, 2014-05-07 Richard Matheson (1926-2013) was a prolific author and screenwriter whose career helped shape the horror and fantasy genres in literature, film, and television for over sixty years. Matheson authored more than ninety short stories and dozens of novels, many of which, including *I Am Legend*, *A Stir of Echoes*, *What Dreams May Come*, *The Shrinking Man*, *Hell House*, and *Bid Time Return*, have been adapted into feature films. Despite his extensive body of work and influence, however, Matheson has remained largely outside the scope of academic scrutiny. The essays in *Reading Richard Matheson: A Critical Survey* provide the first critical overview of Matheson's texts, covering seven of Matheson's novels, a sampling of short stories, and several adaptations for both film and television. The essays are arranged thematically and address the sociopolitical anxieties reflected in Matheson's oeuvre, consider his precursors and successors, and situate him within narrative traditions of mythology, cinema, genre, and memory studies. By providing an overview of his career, *Reading Richard Matheson* illustrates how a commercial writer can contribute to academic discourses of literature and film. Though the essays use a variety of theoretical frameworks, the crossover nature of the collection reflects the broad range of Matheson's output. As such, this volume will appeal to fans of Matheson's work in general, as well as scholars of literature, film studies, cultural studies, genre studies, media studies, memory studies, and popular culture. **Everything I Need to Know I Learned in the Twilight Zone** Mark Dawidziak, 2025-06-25 Can you live your life by what *The Twilight Zone* has to teach you? Yes, and maybe you should. The proof is in this lighthearted collection of life lessons, ground rules, inspirational thoughts, and stirring reminders found in Rod Serling's timeless fantasy series. Written by veteran TV critic Mark Dawidziak, this unauthorized tribute is a celebration of the classic anthology show, but also, on another level, a kind of fifth-dimension self-help book, with each lesson supported by the morality tales told by

Serling and his writers The notion that it's never too late to reinvent yourself soars through *The Last Flight* in which a World War I flier who goes forward in time and gets the chance to trade cowardice for heroism A visit from an angel blares out the wisdom of follow your passion in *A Passage for Trumpet* The meaning of divided we fall is driven home with dramatic results when neighbors suspect neighbors of being invading aliens in *The Monsters Are Due on Maple Street* The old maxim about never judging a book by its cover is given a tasty twist when an alien tome is translated in *To Serve Man*

Science and Religious Anthropology Dr Wesley J Wildman, 2013-05-28 Science and Religious Anthropology explores the convergence of the biological sciences, human sciences and humanities around a spiritually evocative naturalistic vision of human life. The disciplinary contributions are at different levels of complexity from evolution of brains to existential longings and from embodied sociality to ecosystem habitat. The resulting interpretation of the human condition supports some aspects of traditional theological thinking in the world's religious traditions while seriously challenging other aspects. Wesley Wildman draws out these implications for philosophical and religious anthropology and argues that the modern secular interpretation of humanity is most compatible with a religious form of naturalistic humanism. This book resists the reduction of meaning and value questions while taking scientific theories about human life with full seriousness. It argues for a religious interpretation of human beings as bodily creatures emerging within a natural environment that permits engagement with the valuational potentials of reality. This engagement promotes socially borne spiritual quests to realize and harmonize values in everything human beings do from the forging of cultures to the crafting of personal convictions. **Catalog of Copyright**

Cognitive Grammar Louise Nuttall, 2018-09-06 Mind Style and Cognitive Grammar advances our understanding of mind style, the experience of other minds or worldviews through language in literature. This book is the first to set out a detailed unified framework for the analysis of mind style using the account of language and cognition set out in cognitive grammar. Drawing on insights from cognitive linguistics, Louise Nuttall aims to explain how character and narrator minds are created linguistically with a focus on the strange minds encountered in the genre of speculative fiction. Previous analyses of mind style are reconsidered using cognitive grammar alongside original analyses of four novels by Margaret Atwood, Kazuo Ishiguro, Richard Matheson and J. G. Ballard. Responses to the texts in online forums and literary critical studies ground the analyses in the experiences of readers and support an investigation of this effect as an embodied experience cued by the language of a text. Mind Style and Cognitive Grammar advances both stylistics and cognitive linguistics whilst offering new insights for research in speculative fiction.
