THE RHYTHM OF LIFE and other short stories T S Sinha, 2023-12-10 The simple rule of math 2 2 does not add up to 4 in normal life It is not surprising to get it as 3 or 5 A Nobel Prize winner's son may not be the winner of that prize A scholar's son may end up as a clerical staff Everyone comes with his destiny over which he has no control It is God's decision Even then you have to work to get it A glass of water is placed before you to drink You have to pick it to drink Call it a Rhythm of life or a village urchin A thing which earns the bread for one is definitely good for one but may be useless for the other Surprises and wonders are not rare You would find it in Footballer A boy of fifteen has three Phd in three widely different subjects This is unheard but is true This is life Child prodigy are rare in as much as they appear once in a century or two or may be even more in any part of the world Track their record if you so wish to discover their miracles A glimpse of it was seen in the first President of India Dr Rajendra Prasad and the second President of India Dr S Radhakrishnan **H.
