Shifting the Balance, Grades 3-5 Katie Cunningham, Jan Burkins, Kari Yates, 2023-10-10 In this much anticipated follow-up to their groundbreaking book *Shifting the Balance: 6 Ways to Bring the Science of Reading into the Balanced Literacy Classroom*, authors Jan Burkins and Kari Yates, together with co-author Katie Cunningham, extend the conversation in *Shifting the Balance: Grades 3-5: 6 Ways to Bring the Science of Reading into the Upper Elementary Classroom*. This new text is built in mind specifically for grades 3-5 teachers around best practices for the intermediate classroom. *Shifting the Balance: Grades 3-5* introduces six more shifts across individual chapters that zoom in on a common but not as helpful as we had hoped practice to reconsider, untangle a number of misunderstandings that have likely contributed to the use of the common practice. Propose a more science-aligned shift to the current practice. Provide solid scientific research to support the revised practice. Offer a collection of high-leverage, easy-to-implement instructional routines to support the shift to more brain-friendly instruction. The authors offer a refreshing approach that is respectful, accessible, and practical, grounded in an earnest commitment to building a bridge between research and classroom practice. As with the first *Shifting the Balance*, they aim to keep students at the forefront of reading instruction.

Handbook of Literacy in Diglossia and in Dialectal Contexts Elinor Saiegh-Haddad, Lior Laks, Catherine McBride, 2022-03-14 This volume is the first published collection of papers on the impact of diglossia and dialectal variations on language and literacy acquisition, impairment, and education. The authors are pioneering in this field and are leading researchers with substantial experience in conducting research in this area. A wide range of areas and languages are covered, including the US, South Africa, Israel, and various European countries. The chapters present novel data and insights regarding the role of dialectal variations on language and literacy from a wide range of countries and perspectives. These insights have significant theoretical and practical implications. A majority of literacy learners worldwide are taught to read and write in a language variety or a dialect that is not the same as their spoken language. Not only is this the global norm, but it is probably also the greatest obstacle to
