Marcelo Gustavo Kohen, 2007 This Liber Amicorum is published at the occasion of Judge Lucius Caflisch's retirement from a distinguished teaching career at the Graduate Institute of International Studies of Geneva where he served as Professor of International Law for more than three decades and where he has also held the position of Director. This collective work is divided into three main sections. The first section examines questions concerning human rights and international humanitarian law. The second section is devoted to the international law of spaces including matters regarding the law of the sea, international waterways, Antarctica, and boundary and territorial issues. Human Rights Rhetoric Arabella Lyon, Lester C Olson, 2013-09-13 Rhetoric scholars have articulated diverse approaches to both civil and human rights as political, ethical, and academic discourses. Traditions of Testifying and Witnessing initiates important interdisciplinary conversations within human rights rhetoric concerning the construction of rights knowledge, the role of advocacy, and politics of representations during acts of witnessing. Developing a conceptual framework for rhetorical inquiry into rights discourse, the collection of essays by established scholars demonstrates a range of approaches and subject matter. From textual analysis of AIDS politics and activism to theoretical discussions of the nature of rights rhetoric and confession, the book challenges many current assumptions about rights history and practices and still provides an introduction to the recent themes for classroom use. To encourage critical reflection on the assumptions, contentions, and implications of political representations and human rights, the editors have concluded the collection with a series of suggestive visual works without comment to prompt viewers' own engagement with them. This book was originally published as a special issue of Rhetoric Society Quarterly.

Development and Welfare Policy in South Asia Gabriele Koehler, Deepta Chopra, 2014-03-05. This book sheds light on social policies in six South Asian countries introduced between 2003 and 2013, examining the ways in which these policies have come about and what this reflects about the nature of the state in each of these countries. It offers a detailed analysis of the nature of these policies introduced in recent years in Bangladesh, India, Maldives, Nepal, Pakistan, and Sri Lanka, and illustrates the similarities and differences in policy approaches amongst the six countries. Through this analysis, the book explores the thesis of whether there is a particular type of developmental welfare state that can be observed across South Asia. The focus is on social policies or policies designed to address poverty and deliver welfare at the level of programming and design, i.e. the stated intent of these policies. The book also presents an analysis of the fiscal space available in each of the six countries, thereby drawing conclusions about the financial feasibility of a developmental welfare state model in the region. This comprehensive book uniquely explores critical aspects of policy debates on a possible move from welfare to rights. It introduces students and researchers in development studies, social policy, and South Asian studies to innovative welfare programmes in South Asia and gives a new perspective on the nature and patterns of welfare in South Asia with the view of tackling inequality and promoting well-being.

Why cant U teach me 2 read? Beth Fertig, 2009-09-15. Why cant U teach me 2 read is a vivid, stirring, passionately told story of three students who fought for the right to learn to read and won, only to discover that their efforts to learn to read had hardly begun. A person who cannot read cannot confidently ride a city bus, shop, take medicine, or hold a job; much less receive e-mail, follow headlines, send text messages, or write a letter to a relative. And yet the best minds of American education cannot agree on the right way for reading to be taught. In fact, they can hardly settle on a common vocabulary to use in talking about reading. As a result, for a quarter of a century, American schools have been riven by what educators call the reading wars, and our young people have been caught in the crossfire. Why cant U teach me 2 read focuses on three such students: Yamilka, Alejandro, and Antonio, all have learning disabilities and all legally challenged the New York City schools for failing to teach them to read by the time they got to high school. When the school system's own hearing officers ruled in the students' favor, the city was compelled to pay for the three students, now young adults, to receive intensive private tutoring. Fertig tells the inspiring, heartbreaking stories of these three young people as they struggle to learn to read before it is too late. At the same time, she tells a story of

great change in schools nationwide where the crush of standardized tests and the presence of technocrats like New York's mayor Michael Bloomberg and his schools chancellor Joel Klein have energized teachers and parents to question the meaning of education as never before And she dramatizes the process of learning to read showing how the act of reading is nothing short of miraculous Along the way Fertig makes clear that the simple question facing students and teachers alike How should young people learn to read opens onto the broader questions of what schools are really for and why so many of America's schools are faltering Why can't U teach me 2 read is a poignant vital book for the reader in all of us **Workbook &**
