College Convo - Overview of College Admissions Michael Kiers,2011-11-04 The world of college admissions is very complex This book offers families information to successfully navigate through the process **America's Best Colleges for B Students** Tamra B. Orr,2007-11 High school students who get average grades in high school and don't ace the SAT or ACT discover that an exceptional college education is by no means beyond their reach in this guide Along with information on what to look for in a college and what colleges look for in their students besides grades this college reference provides details on more than 75 colleges that make it a point to help students who have not achieved a stellar GPA and includes information on whether colleges feature extra tutoring help from professors and distance learning programs Advice on the application process emphasizes the schools that look beyond GPA to the extracurricular activities and community involvement at which many average students excel Quelling both students and parents fears about finding a good education with a less than perfect academic record this guide makes it clear that it is always possible to find an excellent education

Why They Can't Write John Warner,2020-03-17 An important challenge to what currently masquerades as conventional wisdom regarding the teaching of writing There seems to be widespread agreement that when it comes to the writing skills of college students we are in the midst of a crisis In *Why They Can't Write* John Warner who taught writing at the college level for two decades argues that the problem isn't caused by a lack of rigor or smartphones or some generational character defect Instead he asserts we're teaching writing wrong Warner blames this on decades of educational reform rooted in standardization assessments and accountability We have done no more Warner argues than conditioned students to perform writing related simulations which pass temporary muster but do little to help students develop their writing abilities This style of teaching has made students passive and disengaged Worse yet it hasn't prepared them for writing in the college classroom Rather than making choices and thinking critically as writers must undergraduates simply follow the rules such as the five paragraph essay designed to help them pass these high stakes assessments In *Why They Can't Write* Warner has crafted both a diagnosis for what ails us and a blueprint for fixing a broken system Combining current knowledge of what works in teaching and learning with the most enduring philosophies of classical education this book challenges readers to develop the skills attitudes knowledge and habits of mind of strong writers **The College Blue Book** Huber William
