The Meritocracy Trap Daniel Markovits,2019 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people

Radical Help Hilary Cottam,2018-06-07 How should we live how should we care for one another grow our capabilities to work to learn to

love and fully realise our potential This exciting and ambitious book shows how we can re design the welfare state for this century The welfare state was revolutionary it lifted thousands out of poverty provided decent homes good education and security But it is out of kilter now an elaborate and expensive system of managing needs and risks Today we face new challenges Our resources have changed Hilary Cottam takes us through five Experiments to show us a new design We start on a Swindon housing estate where families who have spent years revolving within our current welfare systems are supported to design their own way out We spend time with young people who are helped to make new connections with radical results We turn to the question of good health care and then to the world of work and see what happens when people are given different tools to make change Then we see those over sixty design a new and affordable system of support At the heart of this way of working is human connection Upending the current crisis of managing scarcity we see instead that our capacities for the relationships that can make the changes are abundant We must work with individuals families and communities to grow the core capabilities we all need to flourish Radical Help describes the principles behind the approach the design process that makes the work possible and the challenges of transition It is bold and above all practical It is not a book of dreams It is about concrete new ways of organising that already have been developing across Britain Radical Help creates a new vision and a radically different approach that can take care of us once more from cradle to grave The Pandemic in Britain Sean Creaven,2023-06-09 This book offers a political analysis and sociological critique of the UK government's response to the novel coronavirus outbreak interpreting the inadequacies of government policy with regard to COVID 19 as the results of neoliberal ideology the protection of corporate interests Brexit nationalism and the peculiarities of a British model of capitalism based on international trade and labour market precarity Arguing that institutionalized corporate capitalist control of state and science generates new and growing public health risks and that consumer driven individualism has eroded community life and the protections this might offer against pandemics the author contends that the UK government's catastrophic response to the COVID 19 pandemic was the result of peculiarly British socioeconomic and political phenomena The Pandemic in Britain will appeal to scholars of sociology philosophy and politics with interests in the COVID 19 pandemic as well as neoliberal ideology and its manifestation in political life *Understanding Urban Politics* Timothy B.
