Shifting Memories Klaus Neumann, 2000 A long look at how contemporary Germany is remembering the Holocaust

Colonial Counterpoint D. R. M. Irving, 2010-06-03 Named one of BBC History Magazine's Books of the Year in 2010 In this groundbreaking study D R M Irving reconnects the Philippines to current musicological discourse on the early modern Hispanic world For some two and a half centuries the Philippine Islands were firmly interlinked to Latin America and Spain through transoceanic relationships of politics religion trade and culture The city of Manila founded in 1571 represented a vital intercultural nexus and a significant conduit for the regional diffusion of Western music Within its ethnically diverse society imported and local musics played a crucial role in the establishment of ecclesiastical hierarchies in the Philippines and in propelling the work of Roman Catholic missionaries in neighboring territories Manila's religious institutions resounded with sumptuous vocal and instrumental performances while an annual calendar of festivities brought together many musical traditions of the indigenous and immigrant populations in complex forms of artistic interaction and opposition Multiple styles and genres coexisted according to strict regulations enforced by state and ecclesiastical authorities and Irving uses the metaphors of European counterpoint and enharmony to critique musical practices within the colonial milieu He argues that the introduction and institutionalization of counterpoint acted as a powerful agent of colonialism throughout the Philippine Archipelago and that contrapuntal structures were reflected in the social and cultural reorganization of Filipino communities under Spanish rule He also contends that the active appropriation of music and dance by the indigenous population constituted a significant contribution to the process of hispanization Sustained enharmonic engagement between Filipinos and Spaniards led to the synthesis of hybrid syncretic genres and the emergence of performance styles that could contest and subvert hegemony Throwing new light on a virtually unknown area of music history this book contributes to current understanding of the globalization of music and repositions the Philippines at the frontiers of research into early modern intercultural exchange

Sibelius Glenda Dawn Goss, 2009-12-15 One of the twentieth century's greatest composers Jean Sibelius 1865-1957 virtually stopped writing music during the last thirty years of his life Recasting his mysterious musical silence and his undeniably influential life against the backdrop of Finland's national awakening Sibelius will be the definitive biography of this creative legend for many years to come Glenda Dawn Goss begins her sweeping narrative in the Finland of Sibelius's youth which remained under Russian control for the first five decades of his life Focusing on previously unexamined events Goss explores the composer's formative experiences as a Russian subject and a member of the Swedish speaking Finnish minority She goes on to trace Sibelius's relationships with his creative contemporaries with whom he worked to usher in a golden age of music and art that would endow Finns with a sense of pride in their heritage and encourage their hopes for the possibilities of nationhood Skillfully evoking this artistic climate in which Sibelius emerged as a leader Goss creates a dazzling portrait of the painting sculpture literature and music it inspired To

solve the deepest riddles of Sibelius's life work and enigmatic silence Goss contends we must understand the awakening in which he played so great a role Situating this national creative tide in the context of Nordic and European cultural currents Sibelius dramatically deepens our knowledge of a misunderstood musical giant and an important chapter in the intellectual history of Europe

Memorials of the Abbey of St. Mary of Fountains John Richard Walbran, Joseph Thomas Fowler, 1863

The Unsettlement of America Anna Brickhouse, 2014-10-01 In *The Unsettlement of America* Anna Brickhouse explores the fascinating career and ambivalent narrative legacy of Paquiquineo a largely forgotten Native translator of the early modern Atlantic world Encountered by Spanish explorers in 1561 near the future site of the Jamestown settlement Paquiquineo traveled to Spain and from there to Mexico where he was christened as Don Luis de Velasco Regarded as a promising envoy to indigenous populations Don Luis experienced nearly a decade of European civilization before thwarting the Spanish colonization of Ajac n his native land on the eastern seaboard in a dramatic act of unsettlement Throughout this sweeping account Brickhouse argues for the interpretive and knowledge producing roles played by Don Luis as well as a range of other translators acting in Native European contact zones while helping to shape an arena of inter indigenous transmission in Europe and the Americas from coastal Virginia and the Floridas to Cuzco Peru from colonial Cuba and Mexico to London and the royal court in Cordova

Spain The book argues for the conceptual significance of unsettlement the literal thwarting or destruction of settlement as well as a heuristic for understanding a range of texts related to settler colonialism throughout the hemisphere As Brickhouse demonstrates the story of Don Luis was told and retold as well as censored distorted and suppressed in an array of writings from the sixteenth century to the twentieth Tracing accounts of this unfounding father as they unfold across the centuries The Unsettlement of America addresses the problems of translation at the heart of his compelling story and speculates on the implications of the literary afterlife of Don Luis for the present and future of hemispheric American studies

historical philological literary and political perspective the book is an insightful exploration of the politics of naming a catastrophic historical event and the competitive nature of national collective memories **Subject as Aporia in Early Modern Art** Alexander Nagel, 2017-07-05 The studies in this volume focus on works of art that generate bafflement and that make that difficulty of reading part of their rhetorical structure These are works whose subjects are not easily identifiable or can be readily associated with more than one subject at the same time works that take a subject into a new genre or format pagan into Christian for example or vice versa and thus destabilize the subject itself works that concentrate on the marginal rather than the central episode and works that introduce elements of the preparatory phase the indeterminacy that are native to the sketch or drawing for example into the realm of finished works Unable to settle on a single reading the effort of interpretation doubles back on its own procedures This aporia according to Aristotle serves as the initial impulse to philosophical inquiry Although the works studied here are in many ways exceptional the aporias they raise register larger structural problems belonging to the artistic culture as a whole Between 1400 and 1700 we see the emergence of new formats new genres new subjects and new techniques as well as new venues for the display of art It is an implicit thesis of this book that the systemic shifts occurring in the early modern period made the emergence of aporetic works of art and of aporia as a problem for art a structural inevitability **S.E.L.A.** ,1986
