Weak Courts, Strong Rights Mark Tushnet, 2009-07-20 Unlike many other countries the United States has few constitutional guarantees of social welfare rights such as income housing or healthcare In part this is because many Americans believe that the courts cannot possibly enforce such guarantees However recent innovations in constitutional design in other countries suggest that such rights can be judicially enforced not by increasing the power of the courts but by decreasing it In *Weak Courts Strong Rights* Mark Tushnet uses a comparative legal perspective to show how creating weaker forms of judicial review may actually allow for stronger social welfare rights under American constitutional law Under strong form judicial review as in the United States judicial interpretations of the constitution are binding on other branches of government In contrast weak form review allows the legislature and executive to reject constitutional rulings by the judiciary as long as they do so publicly Tushnet describes how weak form review works in Great Britain and Canada and discusses the extent to which legislatures can be expected to enforce constitutional norms on their own With that background he turns to social welfare rights explaining the connection between the state action or horizontal effect doctrine and the enforcement of social welfare rights Tushnet then draws together the analysis of weak form review and that of social welfare rights

explaining how weak form review could be used to enforce those rights He demonstrates that there is a clear judicial path not an insurmountable judicial hurdle to better enforcement of constitutional social welfare rights AP U.S. Government & Politics Prep Plus 2021 & 2022 Kaplan Test Prep,2020-12-01 Kaplan s AP U S Government Politics Prep Plus 2021 2022 is revised to align with the latest exam This edition features hundreds of practice questions in the book and online complete explanations for every question and a concise review of high yield content to quickly build your skills and confidence Test like practice comes in 3 full length exams along with numerous pre and post chapter quizzes and online quizzes Customizable study plans ensure that you make the most of the study time you have We re so confident that AP U S Government Politics Prep Plus offers the guidance you need that we guarantee it after studying with our online resources and book you ll score higher on the AP exam or you ll get your money back To access your online resources go to kaptest com moreonline and follow the directions You ll need your book handy to complete the process The College Board has announced that the 2021 exam dates for AP Gov will be May 3 May 20 or June 3 depending on the testing format Each school will determine the testing format for their students Expert Guidance We know the test our AP experts make sure our practice questions and study materials are true to the exam We know students every explanation is written to help you learn and our tips on the exam structure and question formats will help you avoid surprises on Test Day We invented test prep Kaplan www kaptest com has been helping students for 80 years and more than 95% of our students get into their top choice schools

The Use of Foreign Precedents by Constitutional Judges

Tania Groppi, Marie-Claire Ponthoreau, 2013-03-28 In 2007 the International Association of Constitutional Law established an Interest Group on The Use of Foreign Precedents by Constitutional Judges to conduct a survey of the use of foreign precedents by Supreme and Constitutional Courts in deciding constitutional cases Its purpose was to determine through empirical analysis employing both quantitative and qualitative indicators the extent to which foreign case law is cited The survey aimed to test the reliability of studies describing and reporting instances of transjudicial communication between Courts The research also provides useful insights into the extent to which a progressive constitutional convergence may be taking place between common law and civil law traditions The present work includes studies by scholars from African American Asian European Latin American and Oceania countries representing jurisdictions belonging to both common law and civil law traditions and countries employing both centralised and decentralised systems of judicial review The results published here for the first time give us the best evidence yet of the existence and limits of a transnational constitutional communication between courts
