From Pen to Pixel Patrizia Fortini, Krupali Krusche, 2021-01-31 Efforts to build rebuild and maintain the Forum Romanum Rome's historic urban epicenter are likely as old as the place itself some 2800 years As a result the historic significance and archaeological richness of the Forum cannot be overestimated Despite its many changes the Forum Romanum's survival today represents an outstanding example of cultural heritage continuity Its highest possible protection status among monuments conservation agencies in Italy and its early listing on UNESCO's World Heritage List in 1980 are testaments to

this Due to its remarkable physical survival the Forum Romanum has been the object of extensive research documentation restoration and preservation efforts over the past two centuries especially The sophistication of these measures evolved to include a wide range of expertise Lay interest among antiquarians and architects in Rome s past from the Renaissance through the eighteenth century was supplanted by the emerging new disciplines of archaeology architectural restoration and museology From the late nineteenth century corresponding advancements in archaeological method and conservation theory and science were increasingly applied From this time on as well expectations for preserving and presenting the Forum Romanum were high the famous site being a matter of intense Roman pride political interest and serving as a must see destination for visitors to Rome Leading historians archaeologists and conservators have been central to the story of the Forum s survival and interpretation While numerous noted antiquarians and historians preceded him the architect and archaeologist Giacomo Boni 1859 1925 was unusual even prescient in his approach and treatment of the place during his tenure as director of excavations of the Forum Romanum from 1898 until 1925 His combined talents as an architect archaeologist and conservator set a standard at the time for careful research thorough documentation and responsible conservation measures The sponsors of the DHARMA conference have wisely chosen to focus on archaeological research and conservation in the Forum during Giacomo Boni s tenure since his work reflects early best practices in researching preserving and interpreting such places To frame the discussion some precedents and influences of the work of Giacomo Boni are offered

Energy Innovation for the Twenty-First Century Jim Skea, Renée van Diemen, Matthew Hannon, Evangelos Gazis, Aidan Rhodes, 2019 This book addresses the question how effective are countries in promoting the innovation needed to facilitate an energy transition At the heart of the book is a set of empirical case studies covering supply and demand side technologies at different levels of maturity in a variety of countries The case studies are set within an analytical framework encompassing the functions of technological innovation systems and innovation metrics The book concludes with lessons and recommendations for effective policy intervention

Handbook on Green Growth Roger Fouquet, 2019 Economies around the world have arrived at a critical juncture to continue to grow fuelled by fossil fuels and exacerbate climate change or to move towards more sustainable greener growth Choosing the latter is shown to help address climate change as well as present new economic opportunities This Handbook provides a deeper understanding of the concept of green growth and highlights key lessons from the experience of green transformations across the world following a decade of ambitious stimulus packages and green reforms

Fundamentals of Entrepreneurial Finance Marco Da Rin, Thomas Hellmann, 2020-01-21 Fundamentals of Entrepreneurial Finance provides a comprehensive introduction to entrepreneurial finance showing how entrepreneurs and investors jointly turn ideas into valuable high growth start ups Marco Da Rin and Thomas Hellmann examine the challenges entrepreneurs face in obtaining funding and the challenges investors face in attracting promising ventures They follow the joint journey of entrepreneurs and investors from initial

match to the eventual success or failure of the venture Written with the goal of making entrepreneurial finance accessible this book starts with the basics develops advanced topics and derives practical insights Da Rin and Hellmann build on academic foundations from several disciplines and enrich the text with data mini cases examples and exercises *Microbial Exopolymers: Sources, Chemico-Physiological Properties, and Ecosystem Effects in the Marine Environment* Tony Gutierrez,Andreas Teske,Kai Ziervogel,Uta Passow,Antonietta Quigg,2018-10-18 Microorganisms bacteria archaea microeukaryotes in marine environments secrete a diverse array of exopolymeric substances that facilitate attachment to surfaces the formation of organic colloids and larger aggregations of cells marine snow and that can influence many ocean as well as global processes The aim of this Research Topic is to highlight recent advances in the sources chemistry and function of these microbial produced macromolecules We encouraged original research and reviews on exopolymeric substances from their sources chemico physiological properties functions and ecosystem effects and including their role in the Gulf of Mexico following the Deepwater Horizon oil spill disaster **Finance, Law, and the Courts** Marco Lamandini,David Ramos Muñoz,2023-11-09 Law and courts are often neglected in finance The discipline is so permeated by economic analysis the enforcement of its rules so based on regulatory authorities that it often seems more natural to speak of financial regulation rather than financial law de emphasizing the role of courts Authored by leading experts in commercial law Finance Law and the Courts goes beyond this limited perspective The book demonstrates that law and courts are essential in providing finance with the certainty it needs to operate and the elasticity it needs to evolve As explored in Part I of the book these benefits result from law s status as an interpretative construct formed by rules and principles a construct shaped by a need for consistency When principles collide courts are often called to solve hard cases and in doing so the Law of Finance evolves Examining such hard cases Parts II and III analyze courts roles in influencing finance s key concepts and principles For Public Law this includes the impact of sovereign immunity separation of powers or individual rights on the justiciability of financial acts central banks mandates and the interplay between regulatory concepts and fundamental rights For Private Law these include the foundations of liability for misstatements the validity and interpretation of financial contracts and creditor creditor conflict The book further explores the interplay between specialist and generalist courts and other bodies in Part IV concluding with a case for limited specialization of finance justice in the EU Offering a comprehensive legal treatment of finance s regulatory sources this book is an unparalleled resource for law academics practitioners and policymakers seeking to better understand the complex financial cases that they may encounter Offsite Production and Manufacturing for Innovative Construction Jack S. Goulding,Farzad Pour Rahimian,2019-06-19 The offsite and modular market is continuing to grow This book builds on the success of a number of initiatives including formative findings from literature research and development and practice based evidence success stories It presents new thinking and direction from leading experts in the fields of design process construction engineering manufacturing logistics robotics delivery platforms business and

transformational strategies change management legislation organisational learning software design innovation and biomimetics This book is particularly novel and timely as it brings together a number of cogent subjects under one collective umbrella Each of these chapters contain original findings all of which culminate in three Key Learning Points which provide new insight into the cross cutting themes interrelationships and symbiotic forces that exist between each of these chapters This approach also provides readers with new contextualised understanding of the wider issues affecting the offsite market from the need to embrace societal challenges through to the development of rich value laden solutions required for creating sector resilience Content includes a balance between case studies and practice based work through to technical topics theoretical propositions pioneering research and future offsite opportunities ready for exploitation This work includes stakeholder integration skills acquisition new business models and processes circularity and sustainable business strategies robotics and automation innovation and change lean production methodologies and new construction methods Design for Manufacturing and Assembly scaled portfolio platforms and customisability new legal regulatory standards and conformance issues and offsite feasibility scenario development integration

Closing Sysco Lachlan MacKinnon, 2020-02-24

Closing Sysco presents a history of deindustrialization and working class resistance in the Cape Breton steel industry between 1945 and 2001 The Sydney Steel Works is at the heart of this story having existed in tandem with Cape Breton's larger coal operations since the early twentieth century The book explores the multifaceted nature of deindustrialization the internal politics of the steelworkers union the successful efforts to nationalize the mill in 1967 the years in transition under public ownership and the confrontations over health safety and environmental degradation in the 1990s and 2000s Closing Sysco moves beyond the moment of closure to trace the cultural historical and political ramifications of deindustrialization that continue to play out in post industrial Cape Breton Island A significant intervention into the international literature on deindustrialization this study pushes scholarship beyond the bounds of political economy and cultural change to begin tackling issues of bodily health environment and historical memory in post industrial places The experiences of the men and women who were displaced by the decline and closure of Sydney Steel are central to this book Featuring interviews with former steelworkers office employees managers politicians and community activists these one on one conversations reveal both the human cost of industrial closure and the lingering after effects of deindustrialization

The Year Without a World Series Robert C. Cottrell, 2023-09-06

The 1994 Major League Baseball season promised to be memorable Long standing batting and pitching standards were threatened including the revered single season home run record The Montreal Expos and New York Yankees were delivering remarkable campaigns In August acting commissioner Bud Selig called a halt

to the season amid the League's latest labor dispute. The shutdown led to a lockout as well as cancellation of more than 900 regular season games, the scheduled expanded rounds of playoffs and that year's World Series. Like all labor struggles, it was fundamentally about control of salaries, of players' ability to decide their own fates and of the game itself. This book chronicles Major League Baseball's turbulent '94 season and its ripple effects. It highlights earlier labor struggles and the roles performed by individuals from John Montgomery Ward, David Fultz and Robert Murphy to Marvin Miller, Andy Messersmith, Jim Catfish Hunter and Donald Fehr. Also examined are the ballplayers' own organizations from the Players League of the early 1890s to the still potent Major League Baseball Players Association doing battle with team owners and their representatives.

Animal Models, Gut Microbiota and Brain Diseases Yu Wang, Jin Song, Niraj Kumar Jha, Kavindra Kumar Kesari, Chang Liu, 2025-09-11 Brain diseases are among the major disorders influencing human health. In general, brain diseases include diseases that might be classified as neurological or psychiatric, for example, Alzheimer's disease, Parkinson's disease, epilepsy, depression, autism, and addiction. Patients with these types of diseases are mainly characterized by abnormal thinking patterns, cognition, emotional states, and behavior. To date, much of the research on these diseases has used animal models. Despite some encouraging findings, the underlying pathophysiology of these diseases is still relatively unclear. In particular, whether some findings are causal, accompanying, or simply irrelevant to the occurrence of brain diseases has great significance for the development of more effective treatments. In this respect, there is a recognized need for more updated perspectives from preclinical investigations in animal models. It is worth mentioning that since it was first reported in 2011, the reduction of anxiety-like behavior and the changes of neurochemicals in the brain were observed in mice with the absence of gut microbes, resulting in a surge of interest in the role of the gut microbiota in health. And the new concept of microbiota-gut-brain (MGB) axis was formally put forward in 2012, which revealed the ways in which peripheral systems and organs affect the brain and showed that the periphery and the center can be closely linked through the carriers of gut microbiota. After more than a decade of development, animal models provide an important vehicle for exploring the role of gut microbiota in the pathology of brain diseases, potential therapeutic approaches, and diagnostic tools. However, extending these findings to the diagnosis and treatment of human brain diseases still faces great challenges.

How to Achieve Inclusive Growth Valerie Cerra, Barry Eichengreen, Asmaa El-Ganainy, Martin Schindler, 2022 This authoritative book explains the sources and scale of current economic challenges and proposes solutions to craft a brighter future by building a sustainable, green, and inclusive society in the years ahead.

Reconsidering Policy Kate Crowley, Jenny Stewart, Adrian Kay, Brian W. Head, 2021-08-11 For nation-states, the contexts for developing and implementing policy have become more complex and demanding. Yet policy studies have not fully responded to the challenges and opportunities.

represented by these developments Governance literature has drawn attention to a globalising and network based policy world but politics and the role of the state have been de emphasised This book addresses this imbalance by reconsidering traditional policy analytic concepts and re developing and extending new ones in a melded approach defined as systemic institutionalism This links policy with governance and the state and suggests how real world issues might be substantively addressed

Ecology of Predation and Scavenging and the Interface Marcos Moleón, 2021-07-01 Predation and scavenging are pervasive ecological interactions in both terrestrial and aquatic environments The ecology evolution and conservation of predators and scavengers have received wide scientific attention and public awareness However the close connection that exists between predation and scavenging has not been emphasized until very recently The recognition that carnivorous animals may obtain meat by either hunting prey or scavenging their carcasses has profound implications from individual behavior to population community and ecosystem levels However many relevant questions still remain unexplored This book deals with some of these questions with the final aim to definitively dismiss the traditional view that predation and scavenging are disconnected ecological processes This compendium of science may help to inspire ecologists evolutionary biologists paleontologists anthropologists epidemiologists forensic scientists anatomists and of course conservation biologists in their stimulating and promising endeavor of achieving a more comprehensive understanding of carnivory in a rapidly changing world

Victorians Anna Maria Jones, Rebecca N. Mitchell, 2016-12-15 Late nineteenth century Britain experienced an unprecedented explosion of visual print culture and a simultaneous rise in literacy across social classes New printing technologies facilitated quick and cheap dissemination of images illustrated books periodicals cartoons comics and ephemera to a mass readership This Victorian visual turn prefigured the present day impact of the Internet on how images are produced and shared both driving and reflecting the visual culture of its time From this starting point *Drawing on the Victorians* sets out to explore the relationship between Victorian graphic texts and today's steampunk manga and other neo Victorian genres that emulate and reinterpret their predecessors Neo Victorianism is a flourishing worldwide phenomenon but one whose relationship with the texts from which it takes its inspiration remains underexplored In this collection scholars from literary studies cultural studies and art history consider contemporary works Alan Moore's *League of Extraordinary Gentlemen* Moto Naoko's *Lady Victorian* and Edward Gorey's *Gashlycrumb Tinies* among others alongside their antecedents from Punch's 1897 Jubilee issue to *Alice in Wonderland* and more They build on previous work on neo Victorianism to affirm that the past not only influences but converses with the present Contributors Christine Ferguson Kate Flint Anna Maria Jones Linda K Hughes Heidi Kaufman Brian Maidment Rebecca N Mitchell Jennifer Phegley Monika Pietrzak Franger Peter W Sinnema Jessica Straley
