Sustainable Development in Africa Walter Leal Filho, Rudi Pretorius, Luiza Olim de Sousa, 2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very

important to Africa but there is a paucity of publication which documents and promotes experiences from African countries. Due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood. There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges. It is against this background that this book has been produced. It is a truly interdisciplinary publication useful to scholars, social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa. As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts. The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies.

**Policy Analysis in Thailand** Ora-orn Poocharoen, Piyapong Boossabong, 2023-05-22. The subject of policy analysis in Thailand is less examined than in Western societies. This is the first English language book to engage in a detailed comprehensive and current study of policy analysis in Thailand. Providing a broad view of history styles and methods it examines policy analysis both within and beyond executive government revealing the role of parties the military and interest groups. It will be a valuable resource for policy analysis researchers and practitioners and as a comparison with other volumes in the International Library of Policy Analysis series.

**Routledge Handbook of Arts and Global Development** Vicki-Ann Ware, Kirsten Sadeghi-Yekta, Tim Prentki, Wasim al Kurdi, Patrick Kabanda, 2024-08-29. This book brings together a leading team of international experts in arts and global development to showcase effective practice and to explore how this vibrant interdisciplinary field has developed and what the latest research can teach us. Although arts play a central role in human development and in the health and wellbeing of individuals and communities few have attempted to comprehensively explore arts practice as global development. This Handbook first provides a theoretical framework for exploring arts and global development before surveying a comprehensive range of art forms and development practices to explore the potential of the

arts to strategically and beneficially contribute to more just and equitable conditions for communities across the globe. Stretching across the arts from theatre, dance and music to poetry, film and visual arts, the book covers topics as diverse as health, education, peacebuilding, livelihoods, sustainability, activism and arts as research method in programming. The Handbook also identifies gaps in the literature, pointing towards the most pressing and promising avenues for further research over the next few years. This book will be an essential resource for any researcher, student or practitioner wishing to understand the role of the arts in global development and in the global south more generally.
