Holas, David Fiedor, 2021-12-08 Despite slow progress in use mediation continues to consolidate its presence in dispute resolution This important book argues that a more favourable socio legal climate must be created for mediation to thrive and accordingly analyses the legal cultural social systemic and spatial aspects of the use of mediation in the legal practice of the different countries of the European Union EU Based on a spatiotemporal analysis and models of mediation in the EU it pinpoints the social and cultural reasons for the fragmentation of its legal regulation and shows what paths are available to promote the effective implementation of mediation in social practice It is the first book to capture the socio legal context of mediation A spatiotemporal analysis of the extent of use of mediation in a region as large and at the same time as diverse as the EU has never been carried out before Using various methodological and conceptual approaches to analyse the legal and social aspects of introducing mediation to legal systems the authors all with long term experience in the exercise and research of mediation directly in the field provide invaluable insights into such facets of the use of mediation as the following

the social context that raises the need for mediation obstacles to the wider use of mediation in resolving disputes between parties the effects of social influences reflected in legislation that shape the laws of each country the basic models that make up the system of access to mediation in specific EU Member States the role of law as a tool for social change and its reflection in the legal regulation of mediation and perspectives for further development of mediation in the EU The legislative efforts proposed to enhance the regulation of mediation in EU countries are based on modern knowledge of law sociology and psychology As a unique combination of exploration of the theoretical determinants of mediation and an empirical study of the extent of its use in the European area this book s fundamental contribution to the legal theory and practice of mediation is inarguable Its analysis of mediation from three perspectives as a means of improving citizens access to justice as a means of applying social justice in society and as a means of restorative justice are of the utmost value in today s global society For users of mediation EU institutions involved in mediation EU Member State authorities addressing the issue of mediation and the wider dispute resolution community worldwide the book will be welcomed for the giant steps it takes toward refining arguments for the promotion of mediation and its development in theory research and practice

International Law's Invisible Frames Andrea Bianchi, Moshe Hirsch, 2021-09-23 What is international law and how does it work This book argues that our answers to these fundamental questions are shaped by a variety of social cognition and knowledge production processes These processes act as invisible frames through which we understand international law To better conceive the frames within which international law moves and performs we must understand how psychological and socio cultural factors affect decision making in an international legal process This includes identifying the groups of people

and institutions that shape and alter the prevailing discourse in international law and unearthing the hidden meaning of the various mythologies that populate and influence our normative world With chapters from leading experts in the discipline employing insights from sociology psychology and behavioural science this book investigates the mechanisms that allow us to apprehend and intellectually represent the social practice of international law It unveils the hidden or unnoticed processes by which our understanding of international law is formed and helps readers to unlearn some of the presuppositions that inform our largely unquestioned beliefs about international law *The Psychology and Politics of the Collective* Ruth

Parkin-Gounelas,2012 What are the psychological factors in operation when we form groups or crowds and how are these affected by socio historical circumstances History offers endless examples of different forms of human collectivity both private and public small scale and large from the primal horde to the modern nuclear family from the Athenian polis to virtual internet communities Within the context of shifting social bonds in global culture this book brings together debates on the left from political philosophy psychoanalysis social psychology and media and cultural studies to explore the logic of the formation of collective identities from a new theoretical perspective Challenging liberal capitalist models of individualism as well as postmodern identity politics analysts here turn to Continental philosophy Lacan Derrida Agamben Laclau Badiou among others in order to re think collectivity in relation to questions of agency alterity affect sovereignty the national imaginary and the biopolitical In the aftermath of the great mass movements of the twentieth century Marxist Leninism Mao which resulted in bureaucratic submission and the cult of the State the fate of our collective identity today raises urgent questions about the future of collaborative activity the role of mediating institutions in shaping mass psychology what is at stake in a radical democracy and what happens in a crowd **Vincent N. Parrillo** Vincent N. Parrillo,2020-08-16 This book

is a collection of many talks and writings of Vincent N Parrillo a professor of sociology Fulbright scholar and internationally renowned expert on immigration and intergroup relations He gave dozens of invited lectures on three continents frequently under the sponsorship of the U S State Department through its programs in the U S Information Agency USIA and the International Information Program IIE In representing the United States abroad he was interviewed through numerous radio television and newspaper outlets including Radio Free Europe and Voice of America In addition other speaking engagements came from universities in Asia Canada and Europe some of these as the keynote speaker at international conferences He was also a visiting scholar in Belgium the Czech Republic England and Italy Numerous U S newspapers also called upon him for his commentary on current events His reputation both in his homeland and abroad primarily came from his journal articles and books that mostly centered on the themes of assimilation diversity or multiculturalism As his public presentations and writings increased they generated still more speaking invitations that in turn led to many being transcribed and printed in various scholarly publications Many but not all of these writings have been included here A unique and multidimensional person Parrillo expanded his horizons into other fields of endeavor He wrote narrated and produced six television

documentaries for PBS so popular that they were aired repeatedly and DVD copies were in heavy demand He drew from his insights into Ellis Island and immigration to write two historical novels He also acted in or directed dozens of plays comedies dramas and musicals for a number of community theaters in northern New Jersey This collection is an effort to capture at least a part of his insights and observations that he presented to a worldwide public Rethinking the American Race Problem Roy L. Brooks, 1992-01-30 A path breaking analysis of the advent and consequences of deep class stratification in African American society since the civil rights movement of the 1960s Characterized by breadth of vision and reflective realism Rethinking the American Race Problem is a worthy and welcome successor to Gunnar Myrdal's seminal work The American Dilemma The Negro Problem and Modern Democracy published almost half a century ago Boris I Bittker Yale University Insightful tightly argued and deeply felt This brilliant book will affect the thinking of all who read it William A Fletcher University of California Rethinking the American Race Problem challenges the conventional understanding of the problem of race relations in the United States Gerrald Torres University of Minnesota Offers a fresh and intellectually provocative perspective on the relationship between race and public policy in today's America Martin Kilson Harvard University **American Book Publishing Record**, 2006 *Canadian Natural Resource and Environmental Policy, 2nd edition*, 2005 This expanded and updated edition of *Canadian Natural Resource and Environmental Policy* examines policy making in one of the most significant areas of activity in the Canadian economy natural resources and the environment It discusses the evolution of resource policies from the early era of exploitation to the present era of resource and environmental management including the Kyoto Protocol Using an integrated political economy and policy perspective the book provides an analytic framework through which ideological perspectives administrative structures and substantive issues are explored R sum de l diteur Integration or Separation? A Strategy for Racial Equality Roy L. BROOKS, Roy L Brooks, 2009-06-30 Integrated in principle segregated in fact is this the legacy of fifty years of progress in American racial policy Is there hope for much better Roy L Brooks a distinguished professor of law and a writer on matters of race and civil rights says with frank clarity what few will admit integration hasn't worked and possibly never will Equally he casts doubt on the solution that many African Americans and mainstream whites have advocated total separation of the races This book presents Brooks's strategy for a middle way between the increasingly unworkable extremes of integration and separation Limited separation the approach Brooks proposes shifts the focus of civil rights policy from the group to the individual Defined as cultural and economic integration within African American society this policy would promote separate schooling housing and business enterprises where needed to bolster the self sufficiency of the community without trammeling the racial interests of individuals inside or outside of the group and without endangering the idea of a shared Americanness But all the while Brooks envisions African American public schools businesses and communities redesigned to serve the enlightened self interest of the individual Unwilling to give up entirely on racial integration he argues that limited separation

may indeed lead to improved race relations and ultimately to healthy integration This book appears at a crucial time as Republicans dismantle past civil rights policies and Democrats search for new ones With its alternative strategy and useful policy ideas for bringing individual African Americans into mainstream society as first class citizens Integration or Separation should influence debate and policymaking across the spectra of race class and political persuasion

**Racial Conflict and Healing** Andrew Sung Park, 2009-12-01 A Korean theologian approaches the issue of racial conflict including discrimination between minority communities and constructs a theology of seeing that aims to heal the ruptures of racism As ethnic tensions continue to simmer and occasionally erupt immigration and affirmative action laws are hotly debated in every ethnic minority African Americans Hispanic Americans Native Americans even Asian Americans the so called model minority struggle in the racially charged atmosphere of contemporary America In the aftermath of the Los Angeles riots of 1992 and the ensuing violence against Korean Americans Andrew Sung Park seeks a theological model that will help transform a society of oppression injustice and violence into a community of equity fairness and mutual consideration Park emphasizes that such a transformation does not and cannot begin only with good intentions but must be grounded in an understanding of all the socio economic and cultural issues that lead to oppression and tension Using the Korean term *han* to describe the deep seated suffering of racial oppression he then suggests resources for understanding and healing in both Christian and Asian traditions Part I of *Racial Conflict and Healing* describes the status quo from a Korean American perspective including discrimination against ethnic minorities and the discrimination they inflict on one another In Parts II and III Park suggests that American society as a whole needs a superordinate vision to form a unified community Park argues that our profoundly individualistic society must learn to understand an idea of self that is formed through relationship with others Finally in Part IV he presents a theological model a theology of seeing as a way to genuinely understand the other and to promote healing within our society
