Crown and Nobility in Early Modern France Donna Bohanan, 2017-03-10 This book analyses the evolving relationship between the French monarchy and the French nobility in the early modern period New interpretations of the absolutist state in France have challenged the orthodox vision of the interaction between the crown and elite society By focusing on the struggle of central government to control the periphery Bohanan links the literature on collaboration patronage and taxation with research on the social origins and

structure of provincial nobilities Three provincial examples Provence Dauphine and Brittany illustrate the ways in which elites organised and mobilised by vertical ties of dependency based on patronage were co-opted or subverted by the crown The monarchy's success in raising more money from these pays d'etats depended on its ability to juggle a set of different strategies each conceived according to the particularity of the social political and institutional context of the province Bohanan shows that the strategies and expedients employed by the crown varied from province to province conceived on an individual basis they bear the signs of ad hoc responses rather than a grandiose plan to centralise

Cultures of Power in Europe During the Long Eighteenth Century Hamish M. Scott, Brendan Simms, 2007-07-05 An analysis of the forces which shaped politics and culture in Germany France and Great Britain in the eighteenth century

Great Power Diplomacy A. Wess Mitchell, 2025-10-14 A captivating history of diplomacy and an urgent reminder of why we need to revive its lost arts to survive in a dangerous era of great power competition From the beginning of time human societies have found themselves confronted by enemies too numerous or ferocious to defeat solely by force of arms In these dramatic moments wise leaders have turned to diplomacy to rearrange the gameboard in their favor and stymie seemingly unstoppable foes In Great Power Diplomacy American historian and diplomat A Wess Mitchell recounts the forgotten story of how history's most legendary empires have used diplomacy as a tool of grand strategy to outwit outmaneuver and outlast militarily superior opponents Through fifteen centuries of history Great Power Diplomacy recreates the perilous junctures colorful personalities and intricate statecraft that led to some of history's most stunning diplomatic achievements and greatest disasters The protagonists include giants like Richelieu Metternich Bismarck and Kissinger but also a lesser known cast of scoundrels eunuchs drunkards and fools At every turn fortune favored those great powers with the foresight and dexterity to build winning alliances splinter enemy coalitions and when necessary make peace with their bitterest foes Diplomacy of this kind has become a lost art in recent years as Western elites embraced the illusion that

globalization and the spread of democracy would create a borderless world where nations would live in harmony and war would be abolished from the human story But as Great Power Diplomacy reveals we will need to rediscover the secrets of skillful statecraft as the world enters an unstable new era in which continent sized great powers compete for territory resources and prestige By recalling diplomacy's rich past we can equip ourselves for a more dangerous future **Cassell's New Popular Educator**, 1920 *The Growth and Decline of the French Monarchy* James Mackinnon, 1902 **Power Elites and State Building** Wolfgang Reinhard, 1996 The Origins of the Modern State in Europe series arises from an important international research programme sponsored by the European Science Foundation The aim of the series which comprises seven volumes is to bring together specialists from different countries who reinterpret from a comparative European perspective different aspects of the formation of the state over the long period from the beginning of the thirteenth to the end of the eighteenth century One of the main achievements of the research programme has been to overcome the long established historiographical tendency to regard states mainly from the viewpoint of their twentieth century borders The modern European state defined by a continuous territory with a distinct borderline and complete external sovereignty by the monopoly of every kind of legitimate use of force and by a homogeneous mass of subjects each of whom has the same rights and duties is the outcome of a thousand years of shifting political power and developing notions of the state This major study sets out to examine the processes of state formation and the creation of power elites A team of leading European historians explores the dominant institutions and ideologies of the past and their role in the creation of the contemporary nation state **How to Remember History** Virginia Conser Shaffer, 1890 **Reason, Conflict and Power** Jim Rodgers, 2003 In Reason Conflict and Power Jim Rodgers provides an analytic general survey of major political and social theorists of the modern era from 1688 to the present Major political belief systems are described and explained in a manner that is clearly connected to the chief writers of democratic capitalism socialism fascism nationalism feminism and environmentalism from a historical perspective Power and reputation at the court of Louis XIII Sharon Kettering, 2018-02-28 This book seeks to rehabilitate the reputation of Charles d Albert duc de Luynes the controversial favourite of Louis XIII often maligned by historians Kettering argues that the traditional historical interpretation of Luynes is significantly influenced by the testimony of Richelieu who subjected Luynes to a devastating character assassination in his memoirs Richelieu's malice and the bias in histories based upon his memoirs justify another look at Luynes career This book sifts through the historical evidence to offer a new perspective on Luynes arguing that his contributions to the early years of Louis XIII's government have been insufficiently appreciated and in the process throws light upon a dark unpleasant corner of Richelieu's personality often ignored by historians As well as advanced students and historians of early modern France this book should interest those specialising in the history of the European courts power politics patronage and printed pamphlet literature **General Biography** John Aikin, 1813 **Parameters of British Naval Power, 1650-1850** Michael

Duffy, 1992 A searching collection of investigations into British naval power in the closing centuries of the sailing ship era The discussions focus on the later seventeenth century strategy of a big ship battlefleet the setting up of a Western Squadron post 1689 naval recruiting naval power and foreign policy and the administration of the early Victorian navy and the coming of steam

Status, Power, and Identity in Early Modern France Jonathan Dewald, 2015-06-15 In Status Power and Identity in Early Modern France Jonathan Dewald explores European aristocratic society by looking closely at one of its most prominent families The Rohan were rich powerful and respected but Dewald shows that there were also weaknesses in their apparently secure position near the top of French society Family finances were unstable and competing interests among family members generated conflicts and scandals political ambitions led to other troubles partly because aristocrats like the Rohan intensely valued individual achievement even if it came at the expense of the family's needs Dewald argues that aristocratic power in the Old Regime reflected ongoing processes of negotiation and refashioning in which both men and women played important roles So did figures from outside the family government officials middle class intellectuals and businesspeople and many others Dewald describes how the Old Regime's ruling class maintained its power and the obstacles it encountered in doing so
