Marvin Pate,2015-04-27 Answers to critical questions regarding the study of the Jesus of history and the Christ of faith The conclusions of the quest for the historical Jesus which casts the majority of Christ s life as a myth are a stark contrast to the orthodox view of Christ as presented in the Bible Pate demonstrates that a critical analysis of the gospel text along with historical and cultural methods of investigation actually point toward an orthodox view of Christ This work argues that the canonical Gospels are the most trustworthy information we have about the gospel writers as well as the life and ministry of Jesus including his death visit to hades resurrection and ascension Readers will be encouraged by the reliability of the Gospel writers the reality of Jesus humanity and deity and the inferiority of the apocryphal gospels [A Body of Doctrinal Divinity](#)

John Gill,2016-06-14 In this work John Gill argues for the existence and characteristics of the triune God These arguments are all given from a heavily Calvinist perspective but he uses a lot of scripture to back up his claims He also argues that the character of God is shown through his work on Earth by the elect and most importantly through Christ These characteristics then carry on in the final stages of life when human beings pass away and move on to heaven or hell **The University a**

**Place of Slavery** George Hajjar Ph.D,2015-09-18 Over forty years ago I wrote a memo for the sixties The University A Place of Slavery in the heat of the battle I did not alter or revise the text so that the reader of the second decade of the twenty first century can capture the temper and the spirit of the exciting sixties The memo is self explanatory it is hubris and upheavals with a Spartacist touch and it includes the literature of the epoch with its divergent perspectives Moreover it embraces Rousseaus Emile in the age of Enlightenment the forerunner to the French Revolution and the education for liberation and the rediscovery of the humankind The appendix is indeed as illustrations for the contents of the memo and it adds what is relevant to the context I wrote in Besides some of the press reports under struggle I engaged in with the autocracies of the university system which I faced with its arrogance and futilitarian nonsense To the students and professors of this era I say it is time to revive the spirit of humanism and human integrity and to move the world from the kingdom of necessity to the kingdom of revolutionary change and to inscribe under the sun that never sets that freedom is our lodestar that teaches us to paint wings of freedom on our shackles Finally I am deeply indebted to Elias Bacas in helping me have this book published

*Metaphysical Answers to Metaphysical Questions (Book -1)* Mustafa Karnas,2021-02-12 PRESENTATION This book covers the answers to the questions that arise during the training lessons on Becoming Metaphysics Metaphysics Noetics Religions History of Religions Esoteric Behavioral Sciences Our Behaviors Development Secrets Esoteric Occult Enoch Wisdom and many other questions asked by those who attended the training were answered by Mustafa KARNAS and this question was named as being Metaphysical with answers educational information is included in this book In the following five subjects Being metaphysical 1 Managing your own life 2 Managing the flow of events 3 leading the flow of destiny 4 Managing the future 5 Managing information Mustafa KARNAS BEING METAPHYSICAL Our topic is to manage the flow of destiny how will we manage our destiny How easy it is but hard when you don t know Let s examine the question of what is to know knowing is like opening Matryoshka dolls you go to the deepest knowing at every trench becomes a function What else is to know Knowing is holding holding is determining a space between references that is knowing is measuring The only reason we know is because we can measure what we measure is what we perceive What we perceive means something other than references created by what we know what we know is what we learned by measuring knowing also means understanding by changing the measures With each change of measure or reference the shape of the information also changes so the knowing function continues by updating the previously known With these constantly changing references even if the information is the same with the measurements forming a different judgment on everyone the projection of everyone will be different Knowing can only happen with the approval of others so we know what we know only in others we cannot know anything in ourselves The most important of the references that tell us what we know are their projections reflections For example if we hear ringing bells in a rural area even if we do not see it he tells us that there is a sheep goat cow herd in a place we cannot see but can hear in the future with a shepherd and shepherd dogs Just a bell and a bell show that we know all these things and if we turn it on we will move away from the sound if we are afraid of the shepherd dog attack but if we need help we approach the sound and so on We know because everything we know exists on a scale if it did not exist on a measure nothing we know would be because we will never see what we see again so every we see will be what

we do not know and we would never know Although never knowing is a true reality the only reason we know is that human perception violated by the law of uncertainty has created constants for itself within the existing laws of existence That is we are bodies and souls trapped in a continuous repetition of the like in a cyclical hermetic matrix Therefore the flow which is in fact uncertainty becomes a reality in a narrow space within us and the measurements we make in that area are always stable so we know or we would never have known The way we know something is influenced by the way the brain processes it the brain processes information compares the two when a new flow of information arrives and orders the motor cortex accordingly So the only reason we know is because the measurements are stored in snaps stability and stability is that the brain arranges a mess in its own way For example you go to visit someone there is a dog at the door the man says don t be afraid they won t bite You don t have this information you have it Again you go to a yacht for a guest screams coming from the upper floor at 12 at night you worry you say Don t be afraid there is nothing the man is watching a movie these are the information that everybody gets by measuring the motor cortex and snaps What else is measuring does anyone have an idea Another concept means to measure Measure means destiny We have created you on a scale that is we have created you on a fate our subject is destiny So as long as you stay within the measured your destiny is determined If the measurements change the fate also changes because the main thing is the law that is the law of measure appears as projective realities in the form of an array of possibilities in every measurement but when there is an action to change the measurement a new measurement is made subject to another law of creation Therefore the only fate determined is laws that is the rules of the laws of measurement never change but the fate of the person changes with different laws and measurements Whose destiny is the fate mentioned And let s come to the subject of death whose term is the term with whom is the agreement made     **A**
