Short Essays For Children:

Jewish Child Soldiers in the Bloodlands of Europe David M. Rosen, 2022-03-03 This book is about the experiences of Jewish children who were members of armed partisan groups in Eastern Europe during World War II and the Holocaust. It describes and analyzes the role of children as activists, agents, and decision makers in a situation of extraordinary danger and stress. The children in this book were hunted like prey and ran for their lives. They survived by fleeing into the forest and swamps of Eastern Europe and joining anti-German partisan groups. The vast majority of these children were teenagers between ages 11 and 18, although some were younger. They were, by any definition, child soldiers, and that is the reason they lived to tell their tales. The book will be of interest to general and academic audiences. There is also great interest in children and childhood across disciplines of history and the social sciences. It is likely to spark considerable debate and interest since its argument runs counter to the generally accepted wisdom that child soldiers must first and foremost be seen as victims of their recruiters. The argument of this book is that time, place, and context play a key role in our understanding of children's involvement in war, and that in some contexts, children under arms must be seen as exercising an inherent right of self-defense.

Introducing Children's Literature Deborah Cogan Thacker, Jean Webb, 2005-06-29 Introducing Children's Literature is an ideal guide to reading children's literature through the perspective of literary history. Focusing on the major literary movements from Romanticism to Postmodernism, Thacker and Webb examine the concerns of each period and the ways in which these concerns influence and are influenced by the children's literature of the time. Each section begins with a general chapter which explains the relationship between the major issues of each literary period and the formal and thematic qualities of children's texts. Close readings of selected texts follow to demonstrate the key defining characteristics of the form of writing and the literary movements. Original in its approach, this book sets children's literature within the context of literary movements and adult literature. It is essential reading for students studying writing for children. Books discussed include Louisa May Alcott's *Little Women*, Charles Kingsley's *The Water Babies*, Lewis Carroll's *Alice in Wonderland*, Frank Baum's *The Wizard of Oz*, Frances Hodgson Burnett's *The Secret Garden*, P. L. Travers's *Mary Poppins*, E. B. White's *Charlotte's Web*, Philip Pullman's *Clockwork*.
