

Our Education System and Pakistan

We all know the importance of education. It is the most important aspect of any nation's survival today. Education builds the nations; it determines the future of a nation. So that's why we have to adopt our Education Policies very carefully because our future depends on these policies.

ISLAM also tells us about Education and its importance. The real essence of Education according to ISLAM is "to know ALLAH" but I think in our country we truly lost. Neither our schools nor our madrassa's (Islamic Education Centres) are truly educating our youth in this regard. In schools, we are just preparing them for "Money". We aren't educating them we are just preparing "Money Machines". We are only increasing the burden of the books for our children and just enrolling them in a reputed, big school for what, just for social status??? On the other hand in our madrassas we are preparing people who finds very difficult to adjust in the modern society. Sometimes it seems that they are from another planet. A madrassa student can't compete even in our country then the World is so far from him. He finds very difficult to even speak to a school boy. It is crystal clear that Islamic Education is necessary for Muslims but it is also a fact that without modern education no one can compete in this world. There are many examples of Muslim Scholars who not only study the Holy Quraan but also mastered the other subjects like Physics, Chemistry, Biology, Astronomy and many more, with the help of Holy Quraan. I think with the current education system we are narrowing the way for our children instead of widening it. There is no doubt that our children are very talented, both in schools and in madrassas, we just need to give them proper ways to groom, give them the space to become Quaid-E-Azam Muhammad Ali Jinnah, Allama Iqbal, Sir Syed Ahmed Khan, Alberoni, Abnalhasam, or Einstein, Newton, Thomas Edison. The education system we are running with is not working anymore. We have to find a way to bridge this gap between school and madrassa. Robert Maynard Hutchins describes it as "The object of education is to prepare the young to educate themselves throughout their lives." We should give our youth the way to educate themselves.

Edward Everett said that "Education is a better safeguard of liberty than a standing army." Sadly, in Pakistan we are spending more budgets on our arms than on education which depicts our ideology about education! Since 1947 not a single government is able to change this scenario. In price of a grenade almost 20 to 30 children can go to school for the whole year and the other picture.... a grenade can kill 20 to 30 grown people! So a grenade is damaging in two ways stopping children education and then killing innocent people!!! Why not authorities think about this? Answer.... we all know that!!! Don't we?
