The RMS Titanic set sail from Southampton on her very first voyage to New York on April 10th, 1912. Aboard were some of the richest and most influential entrepreneurs of this century. Their total assets were worth \$600 million back in 1912. Not only did the Titanic have some of the most prominent millionaires on board but some of the most poorest emigrants from Europe and the Middle East, desiring a chance for a better economy and social freedom that they could find in America.

The RMS Titanic was the largest and most luxurious ship of her day. All passengers marveled at the design, the comfort, and the unsinkable attributes of this massive ship.

She left Southampton, England and stopped at Cherbourg, France, and then made another stop in Queenstown, Ireland and then set off to sea. There were 2,227 passengers including crew personnel onboard when she set off for New York.

During her maiden and only voyage, the Titanic's crew was warned several times about icebergs in the area by other ships that had navigated through this region. Even with the danger of navigating through these large icebergs, the Titanic was traveling at almost top speed of around 20.5 knots.

The Titanic was owned by the British White Star Line and flew the British flag. She was under all the rules and regulations of the British government. She had been designed to carry a total of 42

Bancroft, 2023-04-06 It was on Wednesday 10 April 1912 that the imposing bulk of the RMS Titanic slipped her berth and to great fanfare headed out into the Solent at the start of her maiden voyage By all accounts the liner was at the time the largest man made object ever to move on water The space her decks created allowed her designers to introduce previously unseen levels of luxury In first class for example there were many new features such as squash courts a Turkish bath a gymnasium a barber shop and even the first swimming pool built on board a ship There was also the bold claim by its builders that Titanic was practically unsinkable Sadly just four days later this assertion was found wanting At 23 40 hours on the evening of 14 April Titanic struck an iceberg In less than three hours she had slipped beneath the waves While the liner s loss has been the subject of numerous films documentaries and publications in the years that followed in this book the author James W Bancroft asks if the RMS Titanic had been doomed to a watery grave even before it sailed Certainly many people experienced feelings of foreboding about the ship and there were many strange omens and unexplained events surrounding its construction and maiden voyage A novel written many years before Titanic was built mirrored almost exactly the details of the disaster and the well known spiritualist W T Stead wrote a story of a similar nature As a passenger on the ship he seemed to have accepted his fate and did not try to save himself Even animals seem to have sensed danger such as the dog which tried to stop its owner from traveling to board the vessel and Titanic s cat had kittens and was seen taking them all off the liner before it sailed The voyage was fatefully delayed for three weeks and at least fifty travelers had forebodings about the Ghost Ship some of whom missed the sailing or refused to board Following years of research James has uncovered some 100 fascinating stories concerning omens and premonitions of people who sailed or in fact decided not to on the ill fated liner This is the first time that all of these incidents have been brought together Together they provide an unusual insight into the Titanic disaster English Guide Book SSC GD CONSTABLE Mocktime Publication, English Guide Book SSC GD
