Sida Et Politique Les Premiers Affrontements:

Sida et politique, les premiers affrontements, 1992 Disease and Democracy Peter Baldwin, 2005-05-16 Disease and Democracy is the first comparative analysis of how Western democratic nations have coped with AIDS Peter Baldwin's exploration of divergent approaches to the epidemic in the United States and several European nations is a springboard for a wide ranging and sophisticated historical analysis of public health practices and policies In addition to his comprehensive presentation of information on approaches to AIDS Baldwin's authoritative book provides a new perspective on our most enduring political dilemma how to reconcile individual liberty with the safety of the community Baldwin finds that Western democratic nations have adopted much more varied approaches to AIDS than is commonly recognized He situates the range of responses to AIDS within the span of past attempts to control contagious disease and discovers the crucial role that history has played in developing these various approaches Baldwin finds that the various tactics adopted to fight AIDS have sprung largely from those adopted against the classic epidemic diseases of the nineteenth century especially cholera and that they reflect the long institutional memories embodied in public health institutions **Sexual Identities, Queer Politics** Mark Blasius, 2021-02-09 In this collection political and public policy analysts explore the social concerns of lesbians gays bisexuals and the transgendered what has come to be known as lgbt or queer politics Compared to the humanities and to other social sciences political science has been slow to address this phenomenon Issues ranging from housing to adoption to laws on sodomy however have increasingly raised important political questions about the rights and status of sexual minorities particularly within liberal democracies such as the United States and also on an international level This anthology offers the first comprehensive overview of the study of lgbt politics in political science across the discipline's main subfields and methodologies and it spotlights lgbt movements in several regions around the world Focusing on the politics of sexuality with regard to the politics of knowledge the book presents a discussion of power that will interest all political scientists and others concerned with minority rights and gender as well as with transformation in the relations between public and private The articles cover such topics as lgbt power in urban politics the impact of public opinion on lgbt life means of effecting legal and political change in the United States and international differences in lgbt political activism The authors represent a new cadre of political scientists who are creating an interdisciplinary domain of research that is informed by and in turn generates political activism They are Dennis Altman M V Lee Badgett Robert W Bailey Mark Blasius Cathy J Cohen Timothy E Cook Paisley Currah Juanita D az Cotto Jan Willem Duyvendak Leonard Harris Bevin Hartnett Rosalind Pollack Petchesky David Rayside Rebecca Mae Salokar and Alan S Yang **Jacques Ellul and the Technological Society in the 21st Century** Helena M. Jerónimo, José Luís García, Carl Mitcham, 2013-07-08 This volume rethinks the work of Jacques Ellul 1912-1994 on the centenary of his birth by presenting an overview of the current debates based on Ellul's insights As one of the most significant twentieth century thinkers about technology Ellul was among the first thinkers to realize the importance of

topics such as globalization terrorism communication technologies and ecology and study them from a technological perspective The book is divided into three sections The first discusses Ellul s diagnosis of modern society and addresses the reception of his work on the technological society the notion of efficiency the process of symbolization de symbolization and ecology The second analyzes communicational and cultural problems as well as threats and trends in early twenty first century societies Many of the issues Ellul saw as crucial such as energy propaganda applied life sciences and communication continue to be so In fact they have grown exponentially on a global scale producing new forms of risk Essays in the final section examine the duality of reason and revelation They pursue an understanding of Ellul in terms of the depth of experience and the traditions of human knowledge which is to say on the one hand the experience of the human being as contained in the rationalist sociological and philosophical traditions On the other hand there are the transcendent roots of human existence as well as revealed knowledge in the mystical and religious traditions The meeting of these two traditions enables us to look at Ellul s work as a whole but above all it opens up a space for examining religious life in the technological society

Global Emergence Of Gay & Lesbian Pol Barry Adam,Jan Willem Duyvendak,André Krouwel,1999 This text brings together stories of the emergence and growth of the gay and lesbian movement in more than a dozen nations on five continents It addresses both older and newer movements and examines the conditions that shape movement opportunities

LES POLITIQUES LOCALES DE LUTTE CONTRE LE SIDA Olivier Borraz,1999-01-01 La lutte contre le sida a constitué durant plusieurs années une priorité de l agenda politique national Comment les institutions locales se sont-elles mobilisées dans la lutte contre ce fléau Quelles leçons peut-on tirer des actions menées tant en matière de prise en charge que de prévention par les nombreux intervenants qui ont participé localement à la lutte contre le sida L ouvrage entend répondre ces questions au travers d une analyse des actions de lutte contre le sida dans trois départements la Gironde l Hérault et Val d Oise

Blood Feuds Eric A. Feldman,Ronald Bayer,1999 In the mid 1980s public health officials in North America Europe Japan and Australia discovered that almost half of the hemophiliac population as well as tens of thousands of blood transfusion recipients had been infected with HIV tainted blood This book provides a comparative perspective on the political legal and social struggles that emerged in response to the HIV contamination of the industrialized world s blood supply It brings together chapters on the experiences of the United States Japan France Canada Germany Denmark Italy and Australia with four comparative essays that shed light on the cultural institutional and economic dimensions of the HIV blood disaster

The Social Production of Crisis Constance A. Nathanson,Henri Bergeron,2023-03-10 When does epidemic disease disrupt society to the point where it becomes a political crisis In the early 1980s almost unnoticed in the larger drama that was AIDS over half of hemophiliacs and a large number of blood transfusion recipients were infected with toxic blood contaminated with HIV The French public s discovery of this catastrophe in the early 1990s created a transformative political crisis this same discovery in the United States went largely unnoticed In *The Social Production of Crisis* Constance A Nathanson and

Henri Bergeron focus on a profoundly troubling story to present a detailed case comparative analysis not only of the catastrophe itself and its multiple retrospective interpretations but also of its intimate connection to the history and organization of blood as a consumer product in each country They draw on secondary sources archival research and interviews with key players to provide a historical political and social reconstruction of the HIV contamination of the blood supply to answer the question of how and why disease morphed into crisis in France and not in the United States They also raise questions about the curious immunity to human suffering as a policy engine in the United States about the often reiterated weakness of civil society in France and about theorizing alternative epidemic trajectories Investigating a series of morally shocking events this book develops a sociological theory of how political crises are socially produced and raises questions about disease policy and politics in the US and France

AIDS in French Culture David Caron, 2001-10-02 The deluge of metaphors triggered in 1981 in France by the first public reports of what would turn out to be the AIDS epidemic spread with far greater speed and efficiency than the virus itself. To understand why it took France so long to react to the AIDS crisis *AIDS in French Culture* analyzes the intersections of three discourses: the literary, the medical, and the political, and traces the origin of French attitudes about AIDS back to nineteenth-century anxieties about nationhood, masculinity, and sexuality. **Sociologie politique de la menace et du risque** Marc Milet, 2022-03-23 Le moment historique de la pandémie de coronavirus a indéniablement placé la gestion publique des crises au centre des agendas politiques mondiaux. Si la question de la gestion des crises par les pouvoirs publics n'est pas nouvelle, la mutation des menaces intentionnelles comme le terrorisme et l'avènement de nouveaux risques technologiques ou sanitaires viennent cependant renouveler leur analyse. Cet ouvrage présente de manière synchrétique les grands auteurs, modèles analytiques et approches permettant d'appréhender ces phénomènes dans nos sociétés contemporaines. Quels sont les usages politiques du risque dans le cadre de la compétition politique de la gestion publique? Quelles conséquences les menaces et les risques ont-ils sur les résultats électoraux? Quel est le rôle des acteurs de la société civile dans la construction des risques? le cadre des mobilisations collectives. Un ouvrage assorti de nombreuses études de cas: menace terroriste, affaire du sang contaminé, le rôle de l'OMS dans la gestion de la crise du coronavirus, etc. **Sociologie politique de l'action publique - 4e éd.** Patrick Hassenteufel, 2024-10-09 Avec la deuxième mondialisation, l'approfondissement de la construction européenne et les dynamiques de territorialisation, les politiques publiques ne se réduisent plus à l'action de l'État. Ces évolutions ont entraîné le développement de cadres d'analyse permettant d'appréhender les processus de construction collective de l'action publique par des acteurs multiples en interaction à différents niveaux. Cet ouvrage présente ces approches en s'appuyant sur des études de cas empiriques portant sur des domaines variés en France et ailleurs. Il rend compte de l'ensemble du processus de politique publique: de la construction de problèmes publics à la concrétisation de l'action publique. Cette nouvelle édition invite à s'interroger sur les transformations en cours de l'État et des politiques publiques dans le contexte des crises multiples du XXI^e siècle: crise financière, dérèglement climatique, crise sanitaire.
