

## How it works

# SMART PHS

Biograph mCT employs a SMART patient handling system (PHS) that was specifically designed for use in PET/CT imaging. Its unique cantilever design, in which the pedestal and table move as one unit, supports a full 227 kg (500 lb) without any differential deflection between PET and CT acquisitions. This no-flex feature ensures accurate attenuation correction for more precise quantification.

- Unique cantilever design
- Full 227 kg (500 lb) table capacity
- No differential deflection
