Entanglements of Empire Tony Ballantyne,2015-03-16 Entanglements of Empire explores the political cultural and economic entanglements and irrevocable social transformations that resulted from Maori engagements with Protestant missionaries at the most distant edge of the British empire The first Protestant mission to New Zealand established in 1814 saw the beginning of complex political cultural and economic entanglements with Maori Entanglements of Empire is a deft reconstruction of the cross cultural translations of this early period Misunderstanding was rife the physical body itself became the most contentious site of cultural engagement as Maori and missionaries struggled over issues of hygiene tattooing clothing and sexual morality In this fascinating study Tony Ballantyne explores the varying understandings of such concepts as civilization work time and space and gender and the practical consequences of the struggles over these ideas The encounters in the classroom chapel kitchen and farmyard worked mutually to affect both the Maori and the English worldviews Ultimately the interest in missionary Christianity among influential Maori chiefs had far reaching consequences for both groups Concluding in 1840 with the signing of the Treaty of Waitangi and the new age it ushered in Ballantyne s book offers important insights into this crucial period of New Zealand history

Ottoman Empire Paul Wittek, 2013-05-20 Paul Wittek's *The Rise of the Ottoman Empire* was first published by the Royal Asiatic Society in 1938 and has been out of print for more than a quarter of a century. The present reissue of the text also brings together translations of some of his other studies on Ottoman history: eight closely interconnected writings on the period from the founding of the state to the Fall of Constantinople and the reign of Mehmed II. Most of these pieces reproduce the texts of lectures or conference papers delivered by Wittek between 1936 and 1938 when he was teaching at Universit Libr in Brussels, Belgium. The books or journals in which they were originally published are for the most part inaccessible except in specialist libraries in a period when Wittek's activities as an Ottoman historian, in particular his formulations regarding the origins and subsequent history of the Ottoman state, the Ghazi thesis, are coming under increasing study within the Anglo-Saxon world of scholarship. An introduction by Colin Heywood sets Wittek's work in its historical and historiographical context for the benefit of those students who were not privileged to experience it firsthand. This reissue and recontextualizing of Wittek's pioneering work on early Ottoman history makes a valuable contribution to the field and to the historiography of Asian and Middle Eastern history generally.
