Superintendent of Documents,1986 Military Review ,1966 **Doctrine of Eternal Recurrence** Austin G. Long,2008 The publication of a new counterinsurgency COIN doctrine manual in late 2006 was widely heralded as an indication that the U S military was finally coming to understand the problems it has recently faced in Iraq and Afghanistan However this interpretation assumes a tight linkage between doctrine as written and operations as actually conducted By comparing modern counterinsurgency doctrine and operations to those of 1960s this paper tests and ultimately disproves this proposition An examination of COIN doctrine and operations in the 1960s reveals that operations seldom matched written doctrine Instead of winning hearts and minds improving civil military relations conducting small unit operations and gathering intelligence most Vietnam War commanders and units attempted to defeat the insurgency through large scale operations and overwhelming firepower Modern U S COIN operations in Afghanistan and Iraq demonstrate a similar preference for high intensity warfare and a similar inability to adapt technologically and mentally to the requirements of COIN To help explain the discrepancy between written doctrine and actual operations this paper posits that ingrained organizational concepts and beliefs have a much greater influence on operations than written doctrine While embedded beliefs can help organizations as they conduct their preferred missions they can be detrimental in other contexts Mental and material preparation for high intensity warfare has made the U S military poorly suited to COIN Altering these beliefs will require more than just new doctrine and some additional professional education The services must reorient themselves mentally as well as physically provided by publisher Army ,1985 **Fundamentals of Military Medicine** Francis G. Hanson, 2010 Historians and sliders have not been kind to either General Douglas MacArthur or the soldiers whom he placed in harm s way in the summer of 1950 This study seeks to redress the imbalance that exists between fact and interpretation For too long historians and soldiers have roundly criticized Task Force Smith s performance extrapolated from its fate a set of assumptions about what constitutes readiness and then used those assumptions to condemn the entire Eighth Army The reality is much more complex A proper examination of the historical record reveals wide disparities in the readiness and combat effectiveness of the subordinate units of America s first forward deployed Cold War field force This work will demonstrate how units achieved that readiness by means of case studies of four infantry regiments one from each of the four infantry divisions that constituted the Eighth Army in 1950 It synthesizes contemporary training doctrine training records generated by maneuver units unit histories reports of inspections by outside agencies contemporary self assessments and the observations of veterans who served in Japan in the fifteen months before the outbreak of the Korean War It challenges the long standing reputation of the Eighth Army as flabby dispirited and weak
