enforcer of the demands of global configurations of capital It is a role that its citizens implicitly understand as revealed in widespread political cynicism decreasing electoral participation and declining legitimacy that require ever greater measures of deceit from political leaders and increased means of coercive social control including militarized police forces and pervasive electronic surveillance There can be no going back to the stage of national politics because the neoliberal content of liberal democratic policies represents the necessities of global capital And it is the contradictions of global capital that define the character of early 21st century political conflict The Publishers' Trade List Annual ,1917 The Multinational Enterprise and Legal Control Cynthia Day Wallace,2021-10-18 This long awaited new book from Cynthia Day Wallace picks up the thread of her best selling Legal Control of the Multinational Enterprise National Regulatory Techniques and the Prospects for International Controls In the present work she applies herself to legal and pragmatic aspects of control surrounding MNE operations The primary focus is on legal and administrative techniques and measures practised by host states to control transparently or less so foreign MNE activity within their territories or even extraterritorially when effects are felt within national boundaries The primary geographic focus is the six most investment intensive industrialized states namely Canada France Germany Japan the United States and the United Kingdom At the same time an important message of the present study is precisely the implication for the developing countries as well as for the emerging market economies of central and eastern Europe and even Asian nations besides Japan because it is the sharing of this very experience of years that can best serve to facilitate a fuller participation on the part of the up and coming economies in the same global market place Educating for a New Millennium Harold Gray Shane,M.
