Cold War Carole Fink,2013-12-24 Cold War is the first new book on the Cold War in many years It looks beyond the US and USSR and treats the conflict from a global perspective providing new insights and perspectives on key events and important cultural coverage

Constructing Regional Security W. Durch,2016-04-30 In this book William Durch examines conventional weapons proliferation since World War II the role of arms transfers in fueling regional conflict and prospects for curbing the global arms trade Noting that supply side arms control efforts which seek to constrain the companies and countries that produce and distribute major conventional weapons have a poor international track record Durch argues for a broader approach that tries to get at the demand side of the equation Addressing the political and regional dynamics that impel arms acquisitions he looks at how arms control might be combined with confidence and security building measures to contain demand and how value based arms trade control measures like codes of conduct could be implemented in stepwise fashion consistent with US national interests in regional stability

Raising Cane in the 'Glades Gail M. Hollander,2009-11-15 Over the last century the Everglades underwent a metaphorical and ecological transition from impenetrable swamp to endangered wetland At the heart of this transformation lies the Florida sugar industry which by the 1990s was at the center of the political storm over the multi billion dollar ecological restoration of the Everglades Raising Cane in the Glades is the first study to situate the environmental transformation of the Everglades within the economic and historical geography of global sugar production and trade Using among other sources interviews government and corporate documents and recently declassified U S State Department memoranda Gail M Hollander demonstrates that the development of Florida s sugar region was the outcome of pitched battles reaching the highest political offices in the U S and in countries around the world especially Cuba which emerges in her narrative as a model a competitor and the regional other to Florida s self Spanning the period from the age of empire to the era of globalization the book shows how the sugar question a label nineteenth century economists coined for intense international debates on sugar production and trade emerges repeatedly in new guises Hollander uses the sugar question as a thread to stitch together past and present local and global in explaining Everglades transformation

Warming Up to the Cold War Robert Teigrob,2009-01-01 Comparing Canadian and American

responses to events such as the atomic bomb the Gouzenko Affair the creation of NATO and the Korean War Teigrob traces the role that culture and public opinion played in shaping responses to international affairs **Living with War** Robert Teigrob, 2016-04-11 Canada and the United States we think of one as a peaceable kingdom the other as a warrior nation But do our expectations about each country's attitudes to war and peace match the realities In *Living with War* Robert Teigrob examines how war is experienced and remembered on both sides of the 49th parallel Surveying popular and scholarly histories films and literature public memorials and museum exhibits in both countries he comes to some startling conclusions Americans may seem more patriotic even jingoistic but they are also more willing to debate the pros and cons of their military actions Canadians though more diffident in their public displays of patriotism are more willing than their southern neighbors to accept the official narrative that depicts just wars fought in the service of a righteous cause A provocative book that complements critiques of contemporary Canadian militarism such as *Warrior Nation* *Living with War* offers an intriguing look at the relationship with the military past on both sides of the border **Accidental Diplomats** Philip Dow, 2024-04-30 Evangelicals in the Shadows of Global Conflict In the twentieth century a hidden chapter of the Cold War unfolded in Africa shaped by American evangelical missionaries *Accidental Diplomats* uncovers this lesser known story revealing how these missionaries' quest to spread the gospel intersected with global geopolitics Their spiritual mission had an unforeseen impact on the socio-political dynamics of the era This book offers a deep dive into the complex interplay of evangelical missions African politics and Cold War strategies It explores the significant yet subtle role of faith in shaping international relations and cultural transformations in Congo Ethiopia and Kenya The narrative brings to light key events and influential figures unraveling the intricate web of religion and global power politics *Accidental Diplomats* is an enlightening read that challenges conventional Cold War narratives spotlighting the often overlooked influence of American evangelicals in shaping Africa's political landscape during this tumultuous period Providing a unique perspective on the intersections of faith history and international diplomacy during the Cold War this book will be a valuable resource for scholars and lay readers alike

Treaty the Trail Smelter case hydroelectric megaprojects and the Great Lakes Water Quality Agreements In addition to water fish wood minerals and myriad other resources Natural Allies details the history of the continental energy relationship from electricity to uranium to fossil fuels showing how Canada became vital to American strategic interests and along with the United States a major international energy power and petro state Environmental and energy relations facilitated the integration and prosperity of Canada and the United States but also made these countries responsible for the current climate crisis and other unsustainable forms of ecological degradation Looking to the future Natural Allies argues that the concept of national security must be widened to include natural security a commitment to public national and international safety from environmental harms especially those caused by human actions

Nuking the Moon Vince Houghton, 2020-05-05 The International Spy Museum's Historian takes us on a wild tour of missions and schemes that almost happened but were ultimately deemed too dangerous expensive ahead of their time or even certifiably insane Compulsively readable laugh out loud history Mary Roach New York Times bestselling author of Grunt and Stiff In 1958 the U S Air Force nuked the moon as a show of military force In 1967 the CIA sent live cats to spy on the Soviet government In 1942 the British built a torpedo proof aircraft carrier out of an iceberg Of course none of these things ever actually happened But in Nuking the Moon intelligence historian Vince Houghton proves that abandoned plans can be just as illuminating and every bit as entertaining as the ones that made it Vividly capturing the fascinating stories of how twenty one plans from WWII and the Cold War went from conception planning and testing to cancellation Houghton explores what happens when innovation meets desperation For every plan as good as D Day there's a scheme to strap bombs to bats or dig a spy tunnel underneath the Soviet embassy Along the way he reveals what each one tells us about twentieth century history the art of spycraft military strategy and famous figures like JFK Castro and Churchill By turns terrifying and hilarious but always riveting this is the unique story of history left on the drawing board
