Virtual Justice Justice Series English Edition:

Virtual Justice Greg Lastowka, 2010-10-26 Tens of millions of people today are living part of their life in a virtual world In places like World of Warcraft Second Life and Free Realms people are making friends building communities creating art and making real money Business is booming on the virtual frontier as billions of dollars are paid in exchange for pixels on screens But sometimes things go wrong Virtual criminals defraud online communities in pursuit of real world profits People feel cheated when their avatars lose virtual property to wrongdoers Increasingly they turn to legal systems for solutions But when your avatar has been robbed what law is there to assist you In Virtual Justice Greg Lastowka illustrates the real legal dilemmas posed by virtual worlds Presenting the most recent lawsuits and controversies he explains how governments are responding to the chaos on the cyberspace frontier After an engaging overview of the history and business models of today's virtual worlds he explores how laws of property jurisdiction crime and copyright are being adapted to pave the path of virtual law Virtual worlds are becoming more important to society with each passing year This pioneering study will be an invaluable guide to scholars of online communities for years to come

Virtual Justice H. Richard Uviller, 2008-10-01 Sensational trials obsessively televised and reported by news media have led many Americans to question the effectiveness of their criminal justice system Do police have the laws they need or the competence to do their job Can juries recognize the truth in the tangle of evidence presented to them What do lawyers actually contribute to the quest for justice in the criminal court In this fascinating book a distinguished legal authority examines the flaws contradictions and weaknesses in our American justice system The gripping stories he tells about the investigation and trial of criminal cases reveal what's really going on and demonstrate how the system often fails to deliver true justice H. Richard Uviller deftly covers major aspects of the criminal justice process from the gathering of evidence capture and custody and eyewitness identification to plea bargaining selecting the jury and the role of the judge He illuminates each aspect of the process by creating and then analyzing a scenario drawn from the daily business of the courtrooms of the nation a scenario in which police or judges may find themselves frustrated or immobilized often by the law itself Uviller explains the legal quandaries that often bedevil the process and shows how decisions by the Supreme Court have relieved or aggravated perplexity He concludes that the prohibitions limiting investigation the pervasive combat mentality between defense and prosecution lawyers and in particular the power vested in a random collection of ordinary people gathered together as a jury all contribute to a criminal justice system that produces virtual rather than actual justice

Architecture and Justice Jonathan Simon, 2016-04-15 Bringing together leading scholars in the fields of criminology international law philosophy and architectural history and theory this book examines the interrelationships between architecture and justice highlighting the provocative and curiously ambiguous juncture between the two Illustrated by a range of disparate and diverse case studies it draws out the formal language of justice and extends the effects that architecture has on both the place of and the individuals subject to justice With its multi disciplinary

perspective the study serves as a platform on which to debate the relationships between the ceremonial legalistic administrative and penal aspects of justice and the spaces that constitute their settings The structure of the book develops from the particular to the universal from local situations to the larger city and thereby examines the role that architecture and urban space play in the deliberations of justice At the same time contributors to the volume remind us of the potential impact the built environment can have in undermining the proper juridical processes of a socio political system Hence the book provides both wise counsel and warnings of the role of public civic space in affirming our sense of a just or unjust society

Challenges in Criminal Justice Ed Johnston, 2022-07-29 This collection examines contemporary challenges to the criminal justice system in England and Wales The chapters written by established academics rising stars and practising lawyers seek not only to highlight these challenges but to offer solutions The book examines issues with legal assistance in the police station concerns relating to juror decision making and problems in and presented by both virtual hearings and the advent of the Single Justice Procedure Notice The work also examines challenges surrounding vulnerability in the criminal justice system Here diversity includes vulnerability in the criminal trial neurodivergence as well as issues with diversity and marginalisation in the criminal justice system as a whole The book also discusses matters centred around sexual offending including the attrition rate in rape cases as well as the recent development of vigilante paedophile hunters and their acceptance as a viable limb of the criminal justice system Finally the volume looks at the post conviction stage and examines recent prison policy through the lens of the human rights of the prisoner The closing chapter examines the independence of the Criminal Cases Review Commission and highlights how recent changes have undermined this While focused on England and Wales the topics discussed are of wider international significance and will be of interest to students academics and policy makers

Access to Justice and Legal Aid Asher Flynn, Jacqueline Hodgson, 2017-01-26 This book considers how access to justice is affected by restrictions to legal aid budgets and increasingly prescriptive service guidelines As common law jurisdictions England and Wales and Australia share similar ideals policies and practices but they differ in aspects of their legal and political culture in the nature of the communities they serve and in their approaches to providing access to justice These jurisdictions thus provide us with different perspectives on what constitutes justice and how we might seek to overcome the burgeoning crisis in unmet legal need The book fills an important gap in existing scholarship as the first to bring together new empirical and theoretical knowledge examining different responses to legal aid crises both in the domestic and comparative contexts across criminal civil and family law It achieves this by examining the broader social political legal health and welfare impacts of legal aid cuts and prescriptive service guidelines Across both jurisdictions this work suggests that it is the most vulnerable groups who lose out in the way the law now operates in the twenty first century This book is essential reading for academics students practitioners and policymakers interested in criminal and civil justice access to justice the provision of legal assistance and legal aid

Virtual Reality and the Criminal Justice System Bobbie

Ticknor,2018-02-19 Virtual Reality VR is becoming a popular technology for gaming and entertainment however researchers and scientists have used the technology for decades to develop real world solutions The criminal justice system has used VR primarily for weapons training and forensic investigation but its uses are expanding This book discusses how the technology can be used for correctional rehabilitation Specifically the book explores how cognitive behavior therapy a widely used therapeutic technique used to treat offenders can be improved using VR Offenders can learn new skills role play and practice what they ve learned in a safe controlled environment that mimics situations they may find when back in the community Additionally those without access to services can use the technology to attend virtual groups offered by trained facilitators no matter where they live With current limitations on resources VR can offer criminal justice practitioners another option for offender rehabilitation

Technology-Enhanced Learning and the Virtual University Michael David Sankey, Henk Huijser, Rachel

Fitzgerald, 2023-09-20 Since the first works on Higher Education Administration in the 1970s no comprehensive work in terms of purpose and scope of Higher Education has been published. There have been important changes in people's aspirations vis-à-vis higher education globally. In parallel, the higher education systems worldwide have been undergoing constant transformation in response to these aspirations. From governments, employers and prospective students and their parents, the stakeholders in the higher education system are now extremely varied, paying close attention to the various aspects of higher education from infrastructure on campus safety and security to administration, faculty and curricula. The present series attempts to take into account the issues of importance to all the stakeholders. Hence, the series not only pays attention to the purpose and outcomes of higher education but also the economics surrounding higher education vis-à-vis marketization. The nitty-gritty of running and maintaining a university, infrastructure impact of globalization and internationalization on delivery and demand of higher education, the commoditization of research and changing paradigms of teaching and learning fall within the purview of the series. The increasing competition from other entities to provide degrees, certificates or other forms of credentials makes it important to have a work that brings all of the elements together to see how they actually interact and interrelate from a systems perspective. The present series attempts to comprehensively attend to these issues and provide a complete reference resource to all those involved and interested in setting up of a Higher Education institution and its administration.

Digital Justice Linda Mulcahy, Anna Tsalapatanis, 2024-08-27 This book explores an increasingly important issue for legal systems across the world. It asks what do we lose and gain when legal proceedings go online. Adopting a multi-disciplinary socio-legal perspective, it draws on an emerging body of empirical evidence from the UK, Australia, Canada and the US about the ways in which digital justice is being conceived of and experienced. Insights are drawn from across the social sciences to discuss the interface of digitalisation with a range of issues such as due process, procedural justice, digital disadvantage, ceremony and ritual, science and technology studies and the dematerialisation of the civic sphere. Written accessibly and provocatively, it poses questions from a variety of different perspectives with a particular focus on marginalised groups.

Disabling Criminal Justice Marie Tidball, 2024-02-22 This book considers the governance of autistic defendants and offenders in the UK courts. Utilising the social model of disability, it considers the dominant strategies of governance including vulnerability, which the author argues obscures the rights of disabled people in the criminal justice system. In doing so, it sheds light on how this group should be governed. Drawing on rigorously researched case studies of autistic adult defendants through the court process, the book brings together relevant legal and policy literature, criminological and criminal justice theory and disability studies to provide insight into the dividing practices that affect the governance of disabled defendants' conduct. Using interviews with elites and practitioners, textual analysis and court observation of eight autistic adult defendants through their court process, the book investigates why the

status of autistic defendants as disabled under the Equality Act 2010 has been overlooked in criminal justice policy and criminal court decision making It explores the impact of the collateral effects and symbiotic harm of the criminal justice process on family members who support these defendants through the criminal justice process
