Above the Fray Shai M. Dromi, 2020-01-24 From Lake Chad to Iraq nongovernmental organizations NGOs provide relief around the globe and their scope is growing every year Policy makers and activists often assume that humanitarian aid is best provided by these organizations which are generally seen as impartial and neutral In *Above the Fray* Shai M Dromi investigates why the international community overwhelmingly trusts humanitarian NGOs by looking at the historical development of their culture With a particular focus on the Red Cross Dromi reveals that NGOs arose because of the efforts of orthodox Calvinists demonstrating for the first time the origins of the unusual moral culture that has supported NGOs for the past 150 years Drawing on archival research Dromi traces the genesis of the Red Cross to a Calvinist movement working in mid nineteenth century Geneva He shows how global humanitarian policies emerged from the Red Cross founding members faith that an international volunteer program not beholden to the state was the only ethical way to provide relief to victims of armed conflict By illustrating how Calvinism shaped the humanitarian field Dromi argues for the key role belief systems play in establishing social fields and institutions Ultimately Dromi shows the immeasurable social good that NGOs have achieved but also points to their limitations and suggests that alternative models of humanitarian relief need to be considered

Daughters of 1968 Lisa Greenwald, 2019 *Daughters of 1968* is the story of French feminism between 1944 and 1981

when feminism played a central political role in the history of France The key women during this epoch were often leftists committed to a materialist critique of society and were part of a postwar tradition that produced widespread social change revamping the workplace and laws governing everything from abortion to marriage The May 1968 events with their embrace of radical individualism and antiauthoritarianism triggered a break from the past and the women's movement split into two strands One became universalist and intensely activist the other particularist and less activist distancing itself from contemporary feminism This theoretical debate manifested itself in battles between women and organizations on the streets and in the courts The history of French feminism is the history of women's claims to individualism and citizenship that had been granted their male counterparts at least in principle in 1789 Yet French women have more often donned the mantle of particularism advancing their contributions as mothers to prove their worth as citizens than they have thrown it off claiming absolute equality The few exceptions such as Simone de Beauvoir or the 1970s activists illustrate the diversity and tensions within French feminism as France moved from a corporatist and tradition minded country to one marked by individualism and modernity

Hungarian Dances and Musical Life in Eighteenth-Century Vienna Catherine Mayes, 2025 Eighteenth century accounts of Vienna portray the city as one of the most ethnically and culturally diverse in Europe yet most scholarship about Viennese music at that time focuses on Haydn, Mozart and Beethoven painting a disproportionately Austro-German picture of the Habsburg capital's musical life. *Hungarian Dances and Musical Life in Eighteenth Century Vienna* is a social history of a unique facet of the city's diversity illuminating how it shaped everyday experiences, individual and collective identities and boundaries of belonging from approximately 1750 to 1810. Each chapter presents a case study of Hungarian dances and their music in a particular setting with close attention to the mediating and intersecting effects of gender and class on personal and communal experiences. Engagement with music and dance especially by reading, playing keyboard instruments and taking part in social dancing made cross-cultural encounters possible for relatively socio-economically privileged Viennese women even when their participation in public life and their ability to travel were limited. These cross-cultural encounters were critical to women's imaginative exploration of new identities, some of which pushed against socio-cultural boundaries without risk to their position or reputation. Moving deftly from the Habsburg court and its theaters to public sites of sociability and domestic contexts, Catherine Mayes offers new perspectives on the wide range and impact of social and musical experiences that were integral to daily life in the capital city of a multinational monarchy.

La littérature de jeunesse - 3e éd. Elle s'imprime différemment en nous et nous marque en profondeur la manière d'une mythologie interne. Nous entretenons tous en effet avec certains petits personnages qui ont grandi avec nous des relations intimes et singulières. Quelle littérature peut se targuer d'avoir la même puissance imaginaire que la Madeleine de Proust ? Ce livre d'histoire littéraire propose d'explorer pour la première fois une théorie littéraire du genre. De l'album au roman young adult en passant par la bande dessinée, les imagiers et les classiques, la littérature de jeunesse offre tous ceux qui ont un livre d'enfance dans le cœur les éléments d'une poétique pour cerner cette littérature audacieuse en constant renouvellement.
