Scientific Research Effectiveness J. Hurley, 2012-12-06 Baruch S Blumberg NASA Astrobiology Institute Ames Research Center Moffett Field CA USA Scientific research is one of the major human enterprises Many governments are convinced that research and its products provide the means to enrich an economic life that is no longer sustained by traditional manufacturing and service industries The public has a high expectation of medical research and many are convinced that with the expenditure of sufficient money all human diseases can be conquered they look forward to a long and disease free life There is also a great interest in many sectors of society to understand nature not only in order to control it or learn how best to cope with its uncertainties but to accumulate knowledge for its own sake Finally scientific research contributes significantly to the intellectual stores of humanity and provides an important process to explore the most profound questions of life Modern science is rarely a solitary occupation It requires heavy investments in equipment supplies buildings and field capabilities Scientists need a band of fellow explorers with whom to share the adventure discuss experiments and results and perhaps most importantly enable the testing and retesting of their hypotheses by themselves and by others This was certainly the case in my own research which led eventually to the discovery of the Hepatitis B virus and later to the vaccine for it Scientific training is very specialized whereas the solutions to problems transcend narrow disciplinary borders

Hedging in Scientific Research Articles Ken Hyland, 1998-03-15 This book provides a comprehensive study of hedging in academic research papers relating a systematic analysis of forms to a pragmatic explanation for their use Based on a detailed examination of journal articles and interviews with research scientists the study shows that the extensive use of possibility and tentativeness in research writing is intimately connected to the social and institutional practices of academic communities and is at the heart of how knowledge comes to be socially accredited through texts The study identifies the major forms functions and distribution of hedges and explores the research article genre in detail to present an explanatory framework based on a complex social and ideological interpretive environment The results show that hedging is central to Scientific argument individual scientists and ultimately to science itself The importance of hedging to student writers is also recognised and a chapter devoted to teaching implications

Research in the Social Scientific Study of Religion, Volume 32, 2022-05-16 The present volume brings together scholars from all over the world in an open section and three special sections that explore how lesser heard and unheard voices may be studied Special section 1 Religion in Higher Education interrogates lived experiences of religion in higher education contexts and how certain voices are marginalised and minoritised Special section 2 Cultural Blindness in Psychology explores how culture as a lived experience especially in its religious dimension is rendered invisible in psychological science Finally special section 3 entitled Religious Authority in Practice in Contemporary Evangelical Charismatic and Pentecostal Christianity outlines evangelicalism and introduces authority as a sociological concept from various theoretical perspectives Contributors are Kusha Anand Amin Al Astewani
