Violin-making, as it was and is Edward Heron Allen,1884 *The Strad Facsimile* Edwin John Ward,1992

Handbook of Materials for String Musical Instruments Voichita Bucur,2016-08-29 This book addresses core questions about the role of materials in general and of wood in particular in the construction of string instruments used in the modern symphony orchestra violins violas cellos and basses Further attention is given to materials for classical guitars harps harpsichords and pianos While some of the approaches discussed are traditional most of them depend upon new scientific approaches to the study of the structure of materials such as for example wood cell structure which is visible only using modern high resolution microscopic techniques Many examples of modern and classical instruments are examined together with the relevance of classical techniques for the treatment of wood Composite materials especially designed for soundboards could be a good substitute for some traditional wood species The body and soundboard of the instrument are of major importance for their acoustical properties but the study also examines traditional and new wood species used for items such as bows the instrument neck string pegs etc Wood species properties for musical instruments and growth origins of woods used by great makers such as Antonio Stradivari are examined and compared with more recently grown woods available to current makers The role of varnish in the appearance and acoustics of the final instrument is also discussed since it has often been proposed as a secret ingredient used by great makers Aspects related to strings are commented As well as discussing these subjects with many illustrations from classical and contemporary instruments the book gives attention to conservation and restoration of old instruments and the physical results of these techniques There is also discussion of the

current value of old instruments both for modern performances and as works of art having great monetary value The book will be of interest and value to researchers advanced students music historians and contemporary string instrument makers Musicians in general particularly those playing string instruments will also find its revelations fascinating It will also attract the attention of those using wood for a variety of other purposes for its use in musical instruments uncovers many of its fundamental features Professor Neville H Fletcher Australian National University Canberra The Violinist's Guide Containing Information Pertaining to the Violin Making Industry Violinist, 1916 *Art of Violin Making* Chris Johnson, Roy Courtnall, 1999-02-01 The Art of Violin Making is the major work for the craftsman bringing into one volume a summary of essential information for the violin maker and player as well as providing a historical reference Part One The Violin Makers is devoted to separate chapters on the life and work of some of the greatest of all violin makers the families of Amati Stradivari and Guarneri and the unique genius of Jacob Stainer These chapters include superb colour photographs of examples of their work Also included is a chapter covering the work of some leading contemporary violin makers Part Two The Workshop Tools and Materials provides essential information on the tools working environment and material needed by violin makers Part Three Violin Construction comprises a detailed step by step guide to the traditional method of violin making based closely on the teaching system employed at the world famous Newark School of Violin Making in England *The Manual of Musical Instrument Conservation* Stewart Pollens, 2015-07-09 This is the first book to combine museum based conservation techniques with practical instructions on the maintenance repair adjustment and tuning of virtually every type of historical musical instrument As one of the world's leading conservators of musical instruments Stewart Pollens gives practical advice on the handling storage display and use of historic musical instruments in museums and other settings and provides technical information on such wide ranging subjects as acoustics cleaning climate control corrosion disinfestation conservation ethics historic stringing practice measurement and historic metrology retouching tuning historic temperaments varnish and writing reports There are informative essays on the conservation of each of the major musical instrument groups the treatment of paper textiles wood and metal as well as historic techniques of wood and metalworking as they apply to musical instrument making and repair This is a practical guide that includes equations formulas tables and step by step instructions *Violin Making* Juliet Barker, 2022-09-26 Comprehensive yet practical guide to this most beautiful of crafts Aimed at amateurs students of violin making and woodworkers Takes you through the delicate and precise techniques and brings the art of violin making within the reach of all Superbly illustrated with nearly 200 colour photographs and clear step by step instructions Juliet Barker is a violinmaker teacher and musician with over forty years experience New in paperback for 2022 **Violin Making** Bruce Ossman, 2009 Author and lifelong teacher Bruce Ossman uses his simple techniques and clear instruction to guide you through every single step of making a violin With a complete list of tools full size patterns detailed illustrations and templates for every piece all included you'll craft an instrument fit for an orchestra The
