Virgin Media Programme Guide:

The Marketer's Handbook Laurie Young, 2011-04-22 This book written by a senior marketer with over thirty years experience of using marketing techniques and concepts sets out to describe contextualize and rate them Its prime emphasis is on understanding their status so that they can be used to direct the use of shareholder funds effectively Its conclusion is that seasoned professionals must use their judgement about when and how to use them but they also need to understand them in depth if they are going to make well rounded effective investment decisions Above all it asks how useful and relevant is this concept Will it improve decision making Does the damn thing have any credibility and does it work This book combines a rigorous review of a wide range of marketing concepts with many practical examples and case studies It can be read or dipped into both by seasoned professionals and by those just embarking on their marketing career Sir Paul Judge President Chartered Institute of Marketing Laurie Young casts an experienced and skeptical eye on many cherished marketing concepts and techniques He provides an antidote to the tendency to adopt them without understanding their limitations and possibilities Professor George Day The Wharton School Chairman of the American Marketing Association Laurie Young has produced nothing less than the A Z of marketing He has journeyed far and wide mapping out hundreds of business marketing and communications models to produce an extremely useful industry atlas Certainly it will find a well thumbed home on my bookshelf Hamish Pringle Director General Institute of Practitioners in Advertising This book is much needed by marketing Its value is in challenging concepts some of which have been the accepted norm for a long time But as this book shows some of these may no longer be relevant and appropriate for marketers in today s consumer environment Mike Johnston CEO Dairy Council of Northern Ireland and former Chairman of the Chartered Institute of Marketing Senior marketers like those who make up the membership of the Marketing Society hone the methods and techniques they favour as their career develops Laurie Young clearly did that and an experienced voice shines through this critique It is heartening to find that so many concepts have a long history of producing real value for businesses but alarming to find so many of the theorists favourites to be so groundless Hugh Burkitt CEO The Marketing Society

Medium Law Daithí Mac Síthigh, 2017-09-13 Why should anyone care about the medium of communication today especially when talking about media law In today's digital society many emphasise convergence and seek new regulatory approaches In Medium Law however the medium theory insights of Harold Innis Marshall McLuhan and the Toronto School of Communication are drawn upon as part of an argument that differences between media and technological definitions continue to play a crucial role in the regulation of the media Indeed Mac Síthigh argues that the idea of converged cross platform medium neutral media regulation is unattainable in practice and potentially undesirable in substance This is demonstrated through the exploration of the regulation of a variety of platforms such as films games video on demand and premium rate telephone services Regulatory areas discussed include content regulation

copyright tax relief for producers and developers new online services conflicts between regulatory systems and freedom of expression This timely and topical volume will appeal to postgraduate students and postdoctoral researchers interested in fields such as Law Policy Regulation Media Studies Communications History and Cultural Studies **Television and the Second Screen** James Blake, 2016-11-10 Television is changing almost beyond recognition In the battle for consumers social media sites smart phones and tablets have become rivals to traditional linear TV However audiences and producers are also embracing mobile platforms to enhance TV viewing itself This book examines the emerging phenomenon of the second screen where users are increasingly engaging with content on two screens concurrently The practice is transforming television into an interactive participatory and social experience James Blake examines interactive television from three crucial angles audience motivation and agency advances in TV production and the monetisation of second screen content He also tracks its evolution by bringing together interviews with more than 25 television industry professionals across the major UK channels including commissioning editors digital directors producers and advertising executives These reveal the successes and failures of recent experiments and the innovations in second screen projects As the second screen becomes second nature for viewers and producers the risks and opportunities for the future of television are slowly beginning to emerge Television and the Second Screen will offer students and scholars of television theory industry professionals and anyone with an abiding interest in television and technology an accessible and illuminating guide to this important cultural shift **Marketing Technology as a Service** Laurie Young, Bev Burgess, 2010-05-24 Despite the fact that vast engineering networks are the foundations of modern society the services that technology companies provide over them have been a relatively neglected area of study As a result marketing in some technology businesses has been depressingly tactical and inconsistent Marketers with little experience and even less professional training run around presenting PowerPoint decks to each other chasing after the latest fad and throwing erratic changing activities at the market each quarter Many work on the unchallenged assumption that markets are fast changing and that customers only want the lowest prices Yet this industry has liberated human imagination in the internet and convinced the world that they must have a PC and a mobile phone Now as a result of profound relentless global forces some of the leading firms and greatest minds in it are at last turning their attention to service With the advent of cloud computing and radical changes in the engineering of some utilities the marketing of services that are based on a technical infrastructure is about to become as important and sophisticated as in say consumer products This book explores their story and experience I really enjoyed the book From Products to Services by Mr Laurie Young Encouraged by it Haier accelerated its changeover from a traditional product driven to a more customer centric company This new book Marketing Technology as a Service is another major contribution to technology companies for the cultivation of service needs worldwide Mr Zhang Ruimin CEO and Chairman Haier Group Beijing Young and Burgess describe a shift in mindset and pragmatic techniques that are quite doable Rae Sedel MD Global Technology Practice Russell

Reynolds Associates This book provides practical and insightful advice on how to use services to turn technology into value add solutions for real people Rudy Provoost CEO Philips Lighting Business leaders in India have been remarkably successful at offering technology based services like outsourcing across the world Currently worth 60 billion they intend to reach 300 billion by 2020 To succeed the Indian business community must offer new value propositions and adapt to emerging trends like cloud computing Burgess and Young have put together the first comprehensive and practical guide for business leaders to meet their challenges of exponential growth Dr Mukesh Aghi Chairman and CEO Steria India **The Myths of**

Technology Judith Burnett, Peter Senker, Kathy Walker, 2009 This book questions whether technologies are the rational tangible scientific forward thinking neutral objects they are so often perceived to be exploring instead how powerful mythic ideas about technologies drive our social understanding and our expectations of them Against a rising tide of information we encounter significant technological scientific and medical advances which promise to create an educated humane and equal world This book explores that promise deconstructing technologies to conclude that though they do afford us significant and empowering advances they remain largely cloaked in mystery and often promise more than they can deliver Contributors from diverse intellectual backgrounds and political and epistemological stances spanning sociology and psychosocial investigations innovation studies and scientists combine philosophical inquiry and empirical case studies to create a book which is at once provocative innovative and exciting in the challenges it poses **The Times Index**, 2011 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement **DVD, Blu-ray and Beyond** Jonathan Wroot, Andy Willis, 2017-11-03

This book demonstrates in contrast to statistics that show declining consumption of physical formats that there has not been a mass shift towards purely digital media Physical releases such as special editions DVD box sets and Blu Rays are frequently promoted and sought out by consumers And that past formats such as VHS Laserdisc and HD DVD make for sought after collectible items These trends are also found within particular genres and niche categories such as documentary education and independent film distribution Through its case studies this collection makes a distinctive and significant intervention in highlighting the ways in which the film industry has responded to rapidly changing markets This volume global in scope will prove useful to those studying the distribution and exhibition of films and the economics of the film industry around the world
