development process in detail from production of the first XM4 prototypes in 1984 through numerous modified types until it emerged into official use as the M4 in 1994 The M4 offered a weapon that was 11lb lighter and 6in shorter than the standard M16A2 yet could still deliver precision semi auto and full auto firepower up to an effective range of 500m Over time its capabilities have been enhanced by the M4A1 modifications plus an extensive range of tactical accessories including optical day night sights laser infrared designators under barrel grenade launchers and shotgun modules foregrips furniture options mounting rails and sound suppressors Numerous M4 M4A1 combat operations are investigated to reveal why the weapon has received such high levels of approval by front line combat troops not only in Afghanistan and Iraq where the M4 M4A1 has been intensively combat tested but also in contexts such as Colombia India Israel and the Philippines Profusely illustrated with photographs and artworks and drawing its research from the latest declassified documents this is a complete guide to one of the most important and widely distributed tactical infantry weapons of the last quarter century Manual bibliographico portuguez de livros raros, classicos e curiosos Ricardo Pinto de Mattos,1878 Chemistry of Water Treatment Samuel D. Faust,Osman M. Aly,2018-05-04 This second edition demonstrates how chemistry influences the design of water treatment plants and how it should influence the design Historically water treatment plants have been designed from hydraulic considerations with little regard to chemical aspects The many chemical reactions used for removal of pollutants from water simply cannot be forced to occur within current designs This book re examines this traditional approach in light of today s water quality and treatment Will current water treatment processes be sufficient to meet future demands or will new processes have to be devised Chemistry of Water Treatment assesses the chemical and physical efficacies of current processes to meet the demands of the Safe Drinking water Act providing expert information to persons responsible for the production of potable water into the next century
