

Weather Math Performance Task

Did you know that weather forecasting makes a great deal of math? Meteorologists are scientists who study weather and use math to forecast and record the weather.

To find the average high or low temperature of a certain area in a given month, meteorologists add all of the daily high or low temperatures together and divide by the number of days in that month. This is called taking the average or the mean.

Did you know? Finding the average, or mean, might be how your teacher determines your grade.

Research the daily temperatures for last week in your home area. Record them below.
