Egypt in the Future Tense Samuli Schielke, 2015-03-05 Illustrates the complex and contradictory impact of Muslim revivalism on the expectations and hopes of Egyptian youth Recommended Choice Against the backdrop of the revolutionary uprisings of 2011 2013 Samuli Schielke asks how ordinary Egyptians confront the great promises and grand schemes of religious commitment middle class respectability romantic love and

political ideologies in their daily lives and how they make sense of the existential anxieties and stalled expectations that inevitably accompany such hopes Drawing on many years of study in Egypt and the life stories of rural lower middle class men before and after the revolution Schielke views recent events in ways that are both historically deep and personal Schielke challenges prevailing views of Muslim piety showing that religious lives are part of a much more complex lived experience This wonderful book brings fresh insights into the anthropology of hope in general and Egypt in particular It makes a rewarding read for scholars interested in how life and all its ambiguities and aspirations unfold under changing notions of religious commitment new regimes of circulation and emerging patterns of consumption American Anthropologist

Islam and Popular Culture Karin van Nieuwkerk, Mark LeVine, Martin Stokes, 2016-04-12 Popular culture serves as a fresh and revealing window on contemporary developments in the Muslim world because it is a site where many important and controversial issues are explored and debated Aesthetic expression has become intertwined with politics and religion due to the uprisings of the Arab Spring while at the same time Islamist authorities are showing increasingly accommodating and populist attitudes toward popular culture Not simply a westernizing or secularizing force as some have asserted popular culture now plays a growing role in defining what it means to be Muslim With well structured chapters that explain key concepts clearly Islam and Popular Culture addresses new trends and developments that merge popular arts and Islam Its eighteen case studies by eminent scholars cover a wide range of topics such as lifestyle dress revolutionary street theater graffiti popular music poetry television drama visual culture and dance throughout the Muslim world from Indonesia Africa and the Middle East to Europe The first comprehensive overview of this important subject Islam and Popular Culture offers essential new ways of understanding the diverse religious discourses and pious ethics expressed in popular art productions the cultural politics of states and movements and the global flows of popular culture in the Muslim world **The**

systematically by presenting eleven new case studies occurring on four continents The volume concludes that in our late modern secular societies the enjoyment of religion or of its loose elements is growing In particular when scholars concentrate on lived religion of ordinary people the cheerful experiences appear to prevail Many people use pleasant elements of religion to add meaning to their lives to find spiritual fulfillment or a way to salvation and to experience belonging to a larger unity At the same time diverse cultural dynamics of late modern society such as popular culture commercialization re enchantment and feminization influence this trend of enjoying religion In spite of secularization playing with religion appears to be attractive

Core Connections Christine Şahin,2024 Core Connections Cairo Belly Dance in the Revolution s Aftermath explores the intricate networks of belly dance in Cairo Egypt following the turbulent aftermath of the January 25 2011 revolution This comprehensive ethnography takes readers on a captivating journey through

the city's diverse dance landscapes spanning from Nile cruising tourist boats and decadent five star hotels to smoky late night discos and Pyramid Street cabarets. While mapping the multiple maneuverings of Cairene dancers and viewers alike, author Christine Ahin centralizes the dancers' embodied political insight while fleshing out nuanced portraits of their lives and stories amidst ongoing political precarity. Bridging the realms of Dance and Middle Eastern Gender Studies, this groundbreaking book not only analyses but embodies ethnography. This book's ethnographic approach mirrors the core of Cairo belly dance itself via attending to dual meanings of moving: centralizing mobility and movement as sites of power and knowledge but also in researching and writing in ways that stir up poignant emotions that lead to physical reactions, change and connection. In essence, the book captures the same aesthetics and values of Cairo belly dancing: to move with greater feeling and to cultivate richer core connections within ourselves, between one another and within our city spaces. In doing so, it advocates for a heightened awareness of the intricate nuances present in otherwise marginalized bodily interaction and exchange, recognizing their potential to inspire into more revolutionary realities and relationships.

In der Islamkunde wird seit einigen Jahren sehr lebhaft diskutiert, inwieweit Horizonte des Individuellen in literarischen und dokumentarischen Quellen wahrnehmbar sind. Der Band ist bewusst nicht als kumulativ strukturierte Festgabe konzipiert, sondern soll vielmehr an fachwissenschaftlich relevante Diskussionen anknüpfen.
