La philosophie sociale du XVIIIe siècle et la révolution Alfred Victor Espinas, 1898 The Eclectic Legacy John Brooks, 1998-07 This study offers a new interpretation of the emergence of scientific psychology and sociology in late nineteenth century France Focusing on their relationship with the philosophy taught in the French education system the author shows the profound impact on the individuals most responsible for the introduction of the human sciences into the French university particularly Theodule Ribot Alfred Espinas Pierre Janet and Emile Durkheim Philosophers helped shape the human sciences by their criticisms of conceptual and methodological problems in the emerging disciplines The human sciences that emerged were less reductionist and more methodologically sound than they would have been without the vigorous debate with philosophy This influence is the eclectic legacy of academic philosophy to the human sciences in France

Religion and Revolution in France, 1780-1804 Nigel Aston, 2000 While the French Revolution has been much discussed and studied its impact on religious life in France is rather neglected Yet during this brief period religion underwent great changes that affected everyone clergy and laypeople men and women Catholics Protestants and Jews The Reigns of Terror of the Revolution drove the Church underground permanently altering the relationship between Church and State In this book Nigel Aston offers a readable guide to these tumultuous events While the structures and beliefs of the Catholic Church are central it does not neglect minority groups like Protestants and Jews Among other features the book discusses the Constitutional Church the end of state support for Catholicism the Dechristianization campaign and the Concordat of 1801 2 Key themes discussed include the capacity of all the Churches for survival and adaptation the role of religion in determining political allegiances during the Revolution and the turbulence of Church State relations In this masterly study based on the latest evidence Aston sheds new light on a dynamic period in European history and its impact on the next 200 years of religious life in France

A Classical Republican in Eighteenth-Century France Johnson Kent Wright, 1997-06-01 This is an intellectual biography of Gabriel Bonnot de Mably 1709 85 who emerges as a central figure in the history of republican thought in the era of the Enlightenment and the French Revolution This book has two related aims

The first is to fill an important gap in historical scholarship Although Mably whose career as a historian and political theorist stretched from 1740 to the eve of the French Revolution clearly played a major role in the intellectual history of his era there has been no study of his life and thought in English for nearly seventy years At the same time the book seeks to advance a novel interpretation of Mably's thought He has most often been portrayed in two sharply contrasted ways either as one of a handful of utopian communists and a precursor of nineteenth century socialism or as a deeply conservative enemy of the Enlightenment This study sets forth a different reading of Mably's thought one that shows him to be a classical republican in the sense this term has acquired in recent years for students of early modern political thought Mably was the author of the most comprehensive and influential body of republican thought produced in eighteenth century France a claim with implications that go beyond the merely biographical These are explored in a final chapter which draws some conclusions about the character of classical republicanism in France and about the French contribution to the republican tradition in Europe

The Idea of Progress John Bagnell Bury, 1921 *The Noble Savage* Stelio Cro, 2006-01-01 Stelio Cro's revealing work arising from his more than half dozen previous books considers the eighteenth century Enlightenment in the context of the European experience with and reaction to the cultures of America's original inhabitants Taking into account Spanish Italian French and English sources the author describes how the building materials for Rousseau's allegory of the Noble Savage came from the early Spanish chroniclers of the discovery and conquest of America the Jesuit Relations of the Paraguay Missions a Utopia in its own right the Essais of Montaigne Italian Humanism Shakespeare's Tempest writers of Spain's Golden Age Defoe's Robinson Crusoe and the European philosophes
