

Venipuncture

Blood collection procedure guide

Gather all equipment, wash hands, and put on sterile gloves.

Ask the patient to make a fist and select the venipuncture site in the antecubital fossa.

Disinfect the area with a 70% alcohol swab, working from the center outwards.

Apply a tourniquet about 3 to 4 inches above the site.

Anchor the selected vein with thumb and index finger.

Enter the vein swiftly and ensure blood is flowing.

After blood has been collected, release the tourniquet before withdrawing the needle.

Apply gauze or a cotton ball to the needle entry site, and ask the patient to hold it in place.

Remove and immediately invert the tube 8 to 10 times to mix the sample with the tube additives.

Discard the used needle in the sharps container.

Remove gloves and wash hands with soap and water.

Label the tube for transport to the lab, indicating:

- Patient's full name
- Patient ID
- Birth date
- Date of sample.

Phlebotomy Infection Control Manual

Garland E. Pendergraph

Phlebotomy Infection Control Manual:

Manual of Infection Prevention and Control Nizam Damani, 2019 It has been estimated that in developed countries up to 10% of hospitalized patients develop infections every year Not only is there a substantial cost to healthcare systems but some healthcare associated infections HCIA's can be fatal Since the majority of HCIA's are preventable reducing HCIA's is now considered to be an integral part of patient safety and quality of care provided by all healthcare institutions worldwide Unlike other books on infection control the main strength of this book is to provide clear up to date and practical guidance in infection control in an easy to read format which can act as a quick source of reference on all aspects of HCIA for healthcare workers who are either directly or indirectly involved in prevention and control of HCIA's Although the book's main audience is infection control practitioners such as doctors nurses public health physicians it is also a valuable reference for environmental health officers health educators practice managers in GP surgeries and health service managers
