The Right to Privacy Caroline Kennedy, Ellen Alderman, 1997-02-04 Can the police strip search a woman who has been arrested for a minor traffic violation Can a magazine publish an embarrassing photo of you without your permission Does your boss have the right to read your email Can a company monitor its employees off the job lifestyles and fire those who drink smoke or live with a partner of the same sex Although the word privacy does not appear in the Constitution most of us believe that we have an inalienable right to be left alone Yet in arenas that range from the battlefield of abortion to the information highway privacy is under siege In this eye opening and sometimes hair raising book Alderman and Kennedy survey hundreds of recent cases in which ordinary citizens have come up against the intrusions of government businesses the news media and their own neighbors At once shocking and instructive up to date and rich in historical perspective **The Right to Private** is an invaluable guide to one of the most charged issues of our time Anyone hoping to understand the sometimes precarious state of privacy in modern America should start by reading this book **Washington Post Book World** Skillfully weaves together unfamiliar dramatic case histories a book with impressive breadth **Time** **Image Ethics** Larry Gross, John Stuart Katz, Jay Ruby, 1991-02-28 This pathbreaking collection of thirteen original essays examines the moral rights of the subjects of documentary film photography and television Image makers photographers and filmmakers are coming under increasing criticism for presenting images of people that are considered intrusive and embarrassing to the subject Portraying subjects in a false light appropriating their images and failing to secure informed consent are all practices that intensify the debate

between advocates of the right to privacy and the public's right to know. Discussing these questions from a variety of perspectives, the authors here explore such issues as informed consent, the right of individuals and minority groups to be represented fairly and accurately, the right of individuals to profit from their own image, and the peculiar moral obligations of minorities who image themselves and the producers of autobiographical documentaries. The book includes a series of provocative case studies on the documentaries of Frederick Wiseman, particularly *Titicut Follies*; British documentaries of the 1930s; the libel suit of General Westmoreland against CBS News; the film *Witness* and its portrayal of the Amish; the film *The Gods Must Be Crazy* and its portrayal of the San people of southern Africa; and the treatment of Arabs and gays on television. The first book to explore the moral issues peculiar to the production of visual images, *Image Ethics* will interest a wide range of general readers and students and specialists in film and television production, photography, communications, media, and the social sciences.
