Phraseology And Culture In English:

Phraseology and Culture in English Paul Skandera, 2008-08-22 The proposition that there is a correlation between language and culture or culture specific ways of thinking can be traced back to the views of Herder and von Humboldt in the late 18th and early 19th centuries It is generally accepted today that a language especially its lexicon influences its speakers cultural patterns of thought and perception in various ways for example through a culture specific segmentation of the extralinguistic reality the frequency of occurrence of particular lexical items or the existence of keywords or key word combinations revealing core cultural values The aim of this volume is to explore the cultural dimension of a wide range of preconstructed or semi preconstructed word combinations in English The 17 papers of the volume are divided into four sections focusing on particular lexemes e g enjoy and its collocates types of word combinations e g proverbs and similes use related varieties such as the language of tourism or answering machine messages and user related varieties such as Aboriginal English or African English The sections are preceded by a prologue tracing the development of the study of formulaic language and followed by an epilogue which draws together the threads laid out in the various papers The relation between language and culture in general has been explored in a number of important works over the past ten years However the study of the relation between English phraseology and culture in particular has been largely neglected This volume is the first book length publication devoted entirely to this topic Cultural Linguistics and World Englishes Marzieh

Sadeghpour, Farzad Sharifian, 2020-12-04 This book investigates the study of World Englishes from the perspective of Cultural Linguistics a theoretical and analytical framework for cultural cognition cultural conceptualisations and language that employs and expands on the analytical tools and theoretical advancements in a number of disciplines including cognitive psychology science anthropology distributed cognition and complexity science The field of World Englishes has long focused on the sociolinguistic and applied linguistic study of varieties of English Cultural Linguistics is now opening a new venue for research on World Englishes by exploring cultural conceptualisations underlying different varieties of English The book explores ways in which the analytical framework of Cultural Linguistics may be employed to study varieties of English around the globe Phraseology Sylviane Granger, Fanny Meunier, 2008-06-01 Long regarded as a peripheral issue phraseology is now taking centre stage in a wide range of fields This recent explosion of interest undoubtedly has a great deal to do with the development of corpus linguistics research which has both demonstrated the key role of phraseological expressions in language and provided researchers with automated methods of extraction and analysis The aim of this volume is to take stock of current research in phraseology from a variety of perspectives theoretical descriptive contrastive cultural lexicographic and computational It contains overview chapters by leading experts in the field and a series of case studies focusing on a wide range of multiword units collocations similes idioms routine formulae and recurrent phrases The volume is an invitation for experienced phraseologists to look at the field with different eyes and a useful introduction for the many

researchers who are intrigued by phraseology but need help in finding their way in this rich but complex domain **A Cross-linguistic and Cross-cultural Analysis of English and Slovene Onomastic Phraseological Units** Alenka Urbinc, 2019-04-03 The book investigates English and Slovene onomastic phraseological units PUs and is based on two databases containing English and Slovene PUs with anthroponyms toponyms and their derivatives These databases were created using monolingual English and Slovene phraseological dictionaries The volume provides in depth cross linguistic and cross cultural research into this segment of phraseology and represents the most extensive treatment of any contrastive topic involving Slovene and a foreign language As such it will serve to be a useful source of information for scholars of Slavonic and other languages as well as anyone interested in phraseology cultural specificity etymology translation equivalence and the stereotypical use of ethnonyms **Metaphor and Intercultural Communication** Andreas Musolff, Fiona MacArthur, Giulio Pagani, 2014-05-20 Metaphor and Intercultural Communication examines in detail the dynamics of metaphor in interlingual contact translation and globalization processes Its case studies which combine methods of cognitive metaphor theory with those of corpus based and discourse oriented research cover contact linguistic and cultural contacts between Chinese English including Translational English and Aboriginal English Greek Kabyle Romanian Russian Serbian and Spanish Part I introduces readers to practical and methodological problems of the intercultural transfer of metaphor through empirical corpus based and experimental studies of translators experiences and strategies in dealing with figurative language in a variety of contexts Part II explores the universality relativity dimension of cross and intercultural metaphor on the basis of empirical data from various European and non European cultures Part III investigates the socio economic and political consequences of figurative language use through case studies of communication between aboriginal and mainstream cultures in the media in political discourse and gender related discourses Special attention is paid to cases of miscommunication and of deliberate re and counter conceptualisation of clichés from one culture into another The results open new perspectives on some of the basic assumptions of the classic cognitive paradigm e g regarding metaphor understanding linguistic relativity and concept construction *Advances in Cultural Linguistics* Farzad Sharifian, 2017-05-02 This groundbreaking collection represents the broad scope of cutting edge research in Cultural Linguistics a burgeoning field of interdisciplinary inquiry into the relationships between language and cultural cognition The materials surveyed in its chapters demonstrate how cultural conceptualisations encoded in language relate to all aspects of human life from emotion and embodiment to kinship religion marriage and politics even the understanding of life and death Cultural Linguistics draws on cognitive science complexity science and distributed cognition among other disciplines to strengthen its theoretical and analytical base The tools it has developed have worked toward insightful investigations into the cultural grounding of language in numerous applied domains including World Englishes cross cultural intercultural pragmatics intercultural communication Teaching English as an International Language TEIL and political discourse analysis

Applied Cultural Linguistics Farzad Sharifian, Gary B. Palmer, 2007-04-11 Research in the relatively new field of cultural linguistics has implications for second language learning and intercultural communication This volume is the first of its kind to bring together studies that examine the implications for applied programs of research in these domains Collectively the contributions explore the interrelationship between language culture and conceptualisations Each study focuses on a different language and culture The languages cultures studied include Japanese Chinese Arabic Persian English Aboriginal English and African English The particular conceptual bases of the contributions range from theories of embodiment and conceptual metaphors to theories of schemas and cultural scripts Several authors directly address the application of their observations to the fields of second language dialect learning and intercultural communication while others first present a theoretical analysis and then explore its practical implications Collectively the contributions establish a novel direction for research in applied linguistics
