Library Services for Immigrants and New Americans Jennifer Koerber, 2018-05-09 Wondering what your library can do for your community's immigrant population? This book is replete with resources, tips, and suggestions providing valuable guidance to librarians who want to better serve this still-growing part of America's population. This up-to-date guide to developing and implementing a wide variety of services to immigrants and new Americans focuses on the practical steps of creating and promoting programs. Illustrated by success stories in libraries throughout the country, the book discusses both traditional ESOL and citizenship classes and transformative legal aid and workforce development programs and services in terms of size, type, and local political climate. e.g. sanctuary cities at a variety of public libraries as well as in select school libraries. As changes unfold in regard to how the federal government and local communities view and treat immigrants and new Americans, in their midst, this topic deserves a fresh take from the profession. The author meets that need providing practical ideas that range from creating more accessible websites and improving wayfinding and customer service in order to overcome cultural roadblocks to dealing with backlash in communities as libraries extend outreach and partnership-building goals.

Containing Diversity Yasmeen Abu-Laban, Ethel Tungohan, Christina Gabriel, 2022-10-03 Although Canada is known internationally as a leader among industrialized countries for inclusive practices towards immigrants and refugees, the twenty-first century has witnessed a rise in the number of refugees and temporary migrant workers who are often denied citizenship and may also experience detention and deportation. *Containing Diversity* examines to what extent Canada's long-standing support for immigration, multiculturalism, and citizenship has shifted in favour of discourses, policies, and practices that contain diversity. This book reflects on how diversity is being contained through practices designed to insulate the Canadian settler-colonial state. In assessing the Canadian government's policies towards refugees and asylum seekers, economic migrants, family-class migrants, temporary foreign workers, and multiculturalism, the authors show the various contradictory practices in effect. *Containing Diversity* reflects on policy changes analysed alongside the resurgence of right-wing political ideology and the realities of the COVID-19 pandemic. Ultimately, *Containing Diversity* highlights the need for a reimagining of new forms of solidarity that centre migrant and Indigenous justice.
