

STANDARD OPERATING PROCEDURE

SECURITY STANDING ORDER

A. Reporting Authority

The Security personnel will report to the Senior Project Logistic Manager (SPLM), Ms. Sandy Tew of RYO.

B. Security Function

To provide effective security and safety coverage of the RYO facilities and premise.

1. To notify and report to the SPLM on any irregularities or occurrences during their patrolling duties.
2. To maintain and record all occurrences in the station dairy.
3. To ensure that the security post is kept clean at all times.
4. To conduct regular checks/patrolling duties around the premise as required.
5. Guarding the premises against intrusion on unauthorized entries.
6. Protecting equipment and properties against act of vandalism, theft or sabotage.
7. Permitting only authorized person to enter the premise.
8. Maintain an updated record of those entering and exiting RYO on irregular times specially on Saturday, Sunday and Public Holiday.
9. To maintain a high standard of disciplines and smartness in appearance at all times.
10. Security personnel are not permitted to bring in any friends or relatives into the premise at any point of time.
11. Security Officer must visit the guard post at least twice a day, e.g. morning and night.

C. Appearance / Requirements of Security Guards

1. Guards should always be smartly dressed in full uniform at all times while on duty.
2. All guards to report to duty 15 minutes before time.
3. Time IN and OUT of the guards should be recorded in the attendance book and confirmed by a Guardian's Security Officer.

Security Guard Standard Operating Procedure Manual

Gregory P. Tsinker

Security Guard Standard Operating Procedure Manual:

Security Officer's Handbook Edward Kehoe, 1994-04-12 The Security Officer's Handbook fulfills the distinct need for a single method of setting up the field operations needed to provide adequate protection to the client firm or individual. The Standard Operating Procedure System asks all the questions required to survey any protection objective. In addition, the system provides all the basic information needed to answer those questions and leads to the implementation of the tactical or mission standard operating procedure. The Standard Operating Procedure System may be applied to any type of security or protection operation and may be modified, expanded, or contracted without needing to rewrite or redesign an existing security program. Details a system to survey, implement, and maintain at full operational effectiveness many types of assets protection programs. Provides the basis for the vital training required by every security or physical **The Workplace Violence**

Prevention Handbook Don Philpott, 2019-08-06 Workplace violence can occur anywhere: schools, office buildings, hospitals, or late night convenience stores. It can occur day or night, inside or outside of the workplace, and it can include threats, harassment, bullying, stalking, verbal abuse, and intimidation. Left unchecked, workplace violence can lead to physical assaults and homicide. This updated edition of *The Workplace Violence Prevention Handbook* tackles this often overlooked but pervasive problem and provides a comprehensive five-step process for understanding and preventing it. *The Workplace Violence Prevention Handbook* looks at the extent of the problem, examines some of the myths surrounding it, and provides early warning and detection signs, best prevention policies, and proven defusing, protection, and containment techniques and strategies. At the end of each section, there are a combination of case studies, scenarios, worksheets, and checklists to assist you in understanding the steps needed to plan, develop, and execute an effective workplace violence prevention program. A workplace violence prevention plan is a must. Apart from the legal and liability issues, it just makes sense to protect the organization's most valuable assets: the workforce. For many organizations, there are added benefits from implementing a violence prevention plan. During the risk assessment phase, you frequently discover areas of vulnerability that can be remedied and practices that can be improved. This can lead to increased productivity and efficiency, which could have an ongoing impact on your bottom line. The biggest benefit, however, is in increased safety for everyone using that workplace.

A Guide To Security Guard Company Operations Courtney Sparkman, Are You Sure You Know What It Takes To Win? Keep Clients In This Competitive Market.
