The Prison Industry Bianca Tylek, Worth Rises, 2025-05-06 A meticulous exposé of who profits from incarceration culminating in a compelling case for abolition Based on years of research by the criminal justice organization Worth Rises best known for campaigns that have revolutionized prison telecom and made prison and jail communication free in cities and states around the country The Prison Industry maps the range of ways in which private corporations often with their government partners make money off incarceration It further details the gross extraction of wealth from incarcerated people and their families who have been brutalized by overpolicing and mass surveillance Chapters on labor telecom healthcare community corrections and more explore the origin story of privatization for each sector and how much money is in it for the corporations involved Stretching far beyond private prisons to look at all the sectors that benefit from incarceration the authors illuminate the methods used to extract resources from public coffers and communities which corporations are most active and how they partner with governments and the harms these profit based approaches to justice cause people families and communities Ultimately The Prison Industry makes a compelling case for dismantling the prison industry and prison abolition more broadly It serves as a tool for the tearing down of our wholly oppressive carceral system the ashes of which we can use to create a better world built on care not cages

Plunder Brendan Ballou, 2023-05-02 The authoritative exposé of private equity what it is how it kills businesses and jobs how the government helps and how we stop it Private equity surrounds us Firms like Blackstone Carlyle and KKR are among the largest employers in America and hold assets that rival those of small countries Yet few understand what these firms are or how they work In *Plunder* Brendan Ballou explains how private equity has reshaped American business by raising prices reducing quality cutting jobs and shifting resources from productive to unproductive parts of the economy Ballou vividly illustrates how many private equity firms buy up retailers medical practices prison services nursing home chains and mobile home parks among other businesses using little of their own money to do it and avoiding debt and liability for their actions Forced to take on huge debts and pay extractive fees companies purchased by private equity firms are often left bankrupt or shells of their former selves with consequences to communities that long depended on them Perhaps most startling is Ballou's insight into how this is happening with the active support of various arms of the government But as Ballou reveals in an agenda for reining in the industry private equity can be stopped from wreaking further havoc

Legal Plunder Joshua Page, Joe Soss, 2025-08-12 A searing historically rich account of how US policing and punishment have been retrofitted over the last four decades to extract public and private revenues from America's poorest and most vulnerable communities Alongside the rise of mass incarceration a second profound and equally disturbing development has transpired Since the 1980s US policing and punishment have been remade into tools for stripping resources from the nation's most oppressed communities and turning them into public and private revenues Legal Plunder analyzes this development's origins operations consequences and the political struggles that it has created Drawing on historical and contemporary evidence including original ethnographic research Joshua Page and Joe Soss examine the predatory dimensions of criminal legal governance to show how practices that criminalize police and punish have been retrofitted to siphon resources from subordinated groups subsidize governments and generate corporate profits As tax burdens have declined for the affluent this financial extraction now a core function of the country's sprawling criminal legal apparatus further compounds race class and gender inequalities and injustices Legal Plunder shows that we can no longer afford to overlook legal plunder or the efforts to dismantle it

Unresolved Issues Patrick L. Brooks, 2017-08-31 *Unresolved Issues* Day4Yesterday is a riveting novel by Patrick L Brooks that examines how life's decisions and choices are not arbitrary

but are the result of deep seated emotional pain and trauma that often go unaddressed and untreated We all have varying degrees of dysfunction However it s how we choose to cope with our shortcomings that can alter our steps and contaminate our choices In this gripping novel the author examines how many of our decisions are the reasons for our problems despite the fact that we exert more energy to place the blame elsewhere How we choose to confront life s daily stressors and challenges particularly in our personal and intimate relationships can set us adrift on a turbulent sea of raw emotions Though it is easier to accentuate our positives and strengths doing so at the expense of ignoring our inadequacies can cause us to make catastrophic choices that leave in their wake a host of Unresolved Issues

African American Women with Incarcerated Mates Avon Hart-Johnson,2017-10-12 After four decades of mass incarceration in the U S the disproportionate number of black men in prisons has contributed to an epidemic of black women struggling to support fragile families Yet the literature is scant on how African American women are affected by the imprisonment of their partners Drawing on case studies and firsthand accounts the author brings needed perspective to the political economic and psychological challenges they face including the experience of symbolic imprisonment or serving time on the outside

The Mythology of Crime and Criminal Justice Victor E. Kappeler,Gary W. Potter,2017-07-18 The social construction of crime is often out of proportion to the threat posed The media and advocacy groups shine a spotlight on some crimes and ignore others Street crime is highlighted as putting everyone at risk of victimization while the greater social harms from corporate malfeasance receive far less attention Social arrangements dictate what is defined as crime and the punishments for those who engage in the proscribed behavior Interest groups promote their agendas by appealing to public fears Justifications often have no basis in fact but the public accepts the exaggerations and blames the targeted offenders The net widening effect of more laws and more punishment catches those least able to defend themselves This innovative alternative to traditional textbooks provides insightful observations of myths and trends in criminal justice Fourteen chapters challenge misconceptions about specific crimes or aspects of the criminal justice system Kappeler and Potter dissect popular images of crimes and criminals in a cogent compelling and engaging manner They trace the social construction of each issue and identify the misleading statistics and fears that form the basis of myths and the collateral damage of basing policies on mythical beliefs The authors encourage skepticism about commonly accepted beliefs offer readers a fresh perspective and urge them to analyze important

issues from novel vantage points American Prisons David Musick, Kristine Gunsaulus-Musick, 2017-05-18 Imprisonment has become big business in the United States Using a history of ideas approach this book examines the cultural underpinnings of prisons in the United States and explores how shared ideas about imprisonment evolve into a complex loosely connected nationwide system of prisons that keeps enough persons to populate a small nation behind bars razor wire and electrified fences Tracing both the history of the prison and the very idea of imprisonment in the United States this book provides students with a critical overview of American prisons and considers their past their present and directions for the future Topics covered include a history of imprisonment in America from 1600 to the present day the twentieth century prison building binge the relationship between U S prisons and the private sector a critical account of capital punishment less visible prison minorities including women children and the elderly and sex violence and disease in prison This comprehensive book is essential reading for advanced courses on corrections and correctional management and offers a compelling and provocative analysis of the realities of American penal culture from past to present It is perfect reading for students of criminal justice corrections penology and the sociology of punishment Privatising Punishment in Europe? Tom Daems, Tom Vander Beken, 2018-01-29 In recent times the question of private sector involvement in public affairs has become framed in altogether new terms Across Europe there has been a growth in various forms of public private cooperation in building and maintaining new penal institutions and an increasing presence of private companies offering security services within penal institutions as well as delivering security goods such as electronic monitoring and other equipment to penal authorities Such developments are part of a wider trend towards privatising and marketising security Bringing together key scholars in criminology and penology from across Europe and beyond this book maps and describes trends of privatising punishment throughout Europe paying attention both to prisons and community sanctions In doing so it initiates a continent wide dialogue among academics and key public and private actors on the future of privatisation in Europe Debates on the privatisation of punishment in Europe are still underdeveloped and this book plays a pioneering and agenda setting role in developing this dialogue **The Returns to Power** Thomas F. Remington, 2023-05-16 An unconventional perspective on contemporary economic inequality in America and its dangers for democracy using comparisons with Russia China and Germany Since the economic liberalization wave that began in the late 1970s inequality around the world has skyrocketed In *The Returns to Power* Thomas F Remington examines the rise of extreme economic inequality in the United States since the late 1970s by drawing comparisons to the effects of market reforms in transition countries such as Russia China and Germany Employing an unconventional comparative framework he brings together the latest scholarship in economics and political science and draws on Russian Chinese and German language sources As he shows the US embraced deregulation and market based solutions around the same time that China and Russia implemented major privatization and liberalization reforms The long term result was increasing inequality in all three nations To illustrate why Remington contrasts the effects

of these policies with the postwar economic recovery program in Germany which succeeded in protecting market competition within the framework of a social market economy that provides widely shared prosperity high growth and robust democracy The book concludes with an analysis of the political dangers posed by high inequality and calls for a new public philosophy of liberal capitalism and liberal democracy that would restore political equality and inclusive growth by strengthening political and market competition expanding the provision of public goods and broadening social insurance protection An ambitious account of why political and economic inequality has increased so much in recent times The Returns to Power s emphasis on policy variation across democracies also reminds us that it did not have to turn out this way *H.R. 1084, the Commercial Advertisement Loudness Mitigation Act (CALM) ; H.R. 1147, the Local Community Radio Act of 2009 ; and H.R. 1133, the Family Telephone Connection Protection Act of 2009* United States. Vulnerability and Incarceration Elizabeth Victor,2019-07-09 In light of a history of exploitation by researchers most of the limited scholarship on prisoners in medical ethics is focused on precaution and protections Vulnerability and Incarceration Evaluating Protections for Prisoners in Research explores the best ways for researchers to balance these concerns with the rights of incarcerated persons to both participate in medical research and benefit from medical and scientific progress The book examines the historical and contemporary regulatory landscape governing prisoner participation in research and the concept of vulnerability in play when classifying prisoners as vulnerable Elizabeth Victor discusses how this concept might preclude a prisoner s positive right to participate in research from being acknowledged She also addresses the differences in oversight between public and private prisoners and how the shift to privatized prisons compounds the vulnerability of prisoners in the United States
