Seeds In The Wind English Edition:

Seeds in the Wind Rick Wienecke, 2015-09-16 *Seeds in the Wind* tells about Rick Wienecke's journey into the suffering of the Jewish people in the Holocaust and the crucifixion of Jesus. In the mid 1970's Rick's life style leads him into a place of desperation where he begins searching for God. Rick becomes fascinated with the birthing of Israel as a nation only three years after the Holocaust. While working on a Kibbutz for six months the Lord attaches Rick to the Jewish people, the Land of Israel and to the Jewish Messiah Jesus. Rick's God-given language through sculpting grows and develops alongside these other points of relationship. After their marriage Rick and Dafna learn to step out in faith and eventually obey the Heavenly Commission of creating the Fountain of Tears. This dialogue of suffering between the Holocaust and the Crucifixion is in Arad and soon will be also in Auschwitz Birkenau. *Seeds in the Wind* is the story of how God uses a talented artist to share the message of the Father's heart to His people.

FrimThom Integrated Science for Senior High Schools Thomas Kofi Arboh, Emmanuel Yaw Frimpong, 2025-04-29 The diversity of teaching skills and methods as applied in the classroom mostly results in the variation in understanding on the part of the learner. Not having a clear cut material for teaching also puts pressure on the teacher when it comes to gathering information to deliver in the classroom. Having a more simplified and straightforward text material without compromising on value of content is the main aim of this book. Materials are well selected to make learning and teaching easier for the user of this book. The senior high school student is the main targeted end user of this book. However it can also serve as a reference material for other levels of learning. The content is based on the Ghanaian and West African syllabus for senior high education. This integrated science textbook has its content organized in sections, units and academic year. Year 1 content provides foundation tutoring. Year 2 is built on the content of year 2, likewise year 3 has its content built on that of year 2. This approach renders a vertical upward systematic approach to learning that enables the learner to build upon previous knowledge. Reference materials, tables, charts and units are also provided to assist the learner in doing research or performing experiments. It is our hope that this textbook will satisfy teachers and learners at the senior high level of education in the area of integrated science comprising of basic biology, physics, chemistry, agriculture and indigenous technology.
