Radebe, Mogobe B. Ramose, 2023-06-28 African knowledge is yet to fully contribute to spaces of learning because of the

disciplinary boundaries founded on Western separatist logic From an African epistemology knowledge is interconnected because of the cosmological understanding that the universe is one entity Bringing African knowledge into the academy requires a concerted effort to bring it of its own accord There have been commendable efforts by scholars in South Africa to bring African knowledge to higher education in ways that do not alter or re shape this knowledge to suit the dominant Euro American script This book aims to showcase such efforts This book makes interconnections of themes across disciplines The content produced in this book will ensure that literature will anchor the noble efforts to build African universities that deliberately centre African ways of knowing This book will be among the few publications that focus on Africanisation and decolonisation of knowledges as praxis We anticipate that this book will be recommended in various disciplines of social sciences in South African universities African Perspectives on Ethics for Healthcare Professionals Nico Nortjé, Willem A. Hilliard, 2012 Finally an answer to The Bell Curve Curriculum Studies Handbook - The Next Moment Erik Malewski, 2009-09-10 What comes after the reconceptualization of curriculum studies What is the contribution of the next wave of curriculum scholars Comprehensive and on the cutting edge this Handbook speaks to these questions and extends the conversation on present and future directions in curriculum studies through the work of twenty four newer scholars who
