### A Career to Make Life Worth Living

Many teenagers spend a lot of time contemplating what they want to do when they graduate from high school. I am fortunate in that I already know; I decided to become a veterinarian when I was two or three years old. Just like humans, animals need people to treat them with the respect and dignity they deserve, and I want to be one of those people. Because of this, I am doing all I can at Reavis to lay the groundwork for my success in college. Then, once I am in college, I will study and learn about all species of animals. Finally, I will find happiness in my career as a veterinarian because when animals need my assistance, I know that I will be able to help them.

First, as a freshman at Reavis High School, I keep in mind my lifelong dream of becoming a veterinarian. I have been taking my education here very seriously, because I know that a person needs to be not only knowledgeable, but also extremely disciplined in order to become a veterinarian. Because of this, I work hard to earn good grades, I take pride in my work, and I have learned to manage my time properly. These skills will be particularly valuable when I enter college.

**Identity** Gerald Izenberg, 2019-03-08 Identity The Necessity of a Modern Idea is the first comprehensive history of identity as the answer to the question who or what am I It covers the century from the end of World War I when identity in this sense first became an issue for writers and philosophers to 2010 when European political leaders declared multiculturalism a failure just as Canada which pioneered it was hailing its success Along the way the book examines Erik Erikson s concepts of psychological identity and identity crisis which made the word famous the turn to collective identity and the rise of identity politics in Europe and America varieties and theories of group identity debates over accommodating collective identities within liberal democracy the relationship between individual and group identity the postmodern critique of identity as a concept and the ways it nonetheless transformed the social sciences and altered our ideas of ethics At the same time the book is an argument for the validity and indispensability of identity properly understood Identity was not a concept before the twentieth century because it was taken for granted The slaughter of World War I undermined the honored identities of prewar Europe and as a result the idea of identity as something objective and stable was thrown into question at the same time that people began to sense that it was psychologically and socially necessary We can t be at home in our bodies act effectively in the world or interact comfortably with others without a stable sense of who we are Gerald Izenberg argues that while it is a mistake to believe that our identities are givens that we passively discover about ourselves decreed by God destiny or nature our most important identities have an objective foundation in our existential situation as bodies social beings and creatures who aspire to meaning and transcendence as well as in the legitimacy of our historical particularity

**Foreign Female English Teachers in Japanese Higher Education: Narratives From Our Quarter** ,2020-09-01 The goal of this book is to provide information inspiration and mentorship to teachers namely foreign women but not restricted to such as they navigate the gendered waters of teaching English in Japanese higher education Such a book is timely because foreign female university teachers are outnumbered by their foreign male colleagues by nearly three to one This imbalance however is likely to change as reforms in hiring policies which have until recently generally favored male applicants have been widely implemented to encourage more female teachers and researchers The narratives by the contributors to this book offer a kaleidoscope of experiences that transverse several loosely connected and overlapping themes This book is in a sense a girlfriend s guide to teaching in a Japanese university in that it provides much practical information from those who are already in the field It covers areas such as gaining entry into Japanese higher education teaching searching for and obtaining tenure managing a long term professorial career and taking on leadership responsibilities The personal side of teaching is examined with authors describing how

individual interests have shaped their teaching practices Family matters such as negotiating maternity leave reentering the workforce and difficulties in balancing family and work are discussed by those who have been there and done that The darker issues of the job such as harassment racism and native speakerism are introduced and several chapters with practical and legal information about how to combat them are included as well as a list of valuable resources The contributors to this volume have drawn upon their own unique experiences and have situated their stories in areas that are of great personal importance The individual narratives when taken together highlight not only the complexity of the professional identity of EFL teachers but also the myriad of issues that shape the careers of women in Japanese higher education These issues will resonate with all female EFL faculty regardless of their geographical location
